- Exciting versatile design possibilities
- Sharpen sequential problem solving skills
- Develop strength, flexability & coordination

CLIMBING WALLS (Top Rope/Lead)

- Climb with aid of belayer or hydraulic autobelay
- Top rope and bolt in protection points
- Lead climb impressive walls with stunning features
- Maximum bolt on hold sites allow for continous route setting
- Design possibilites are endless
- State of the art climbing systems
- Design manufactured & installed to:
  BS EN 12572-1:2007 (standard for artifical climbing structures
