

Touchscreen Thermostat: Easy Setup Guide

Contents

- Step 1** Set time & date
- Step 2** Advanced setup
- Step 3** Manual mode
- Step 4** Heating schedule

Step 1 Set the correct time & date

1. Tap the “power” button to switch unit on.
2. The backlight will fade after around 10 seconds.
3. Tap the “Clock” button to switch it back on at any point.
4. Press and hold the “Clock” button for around 7 seconds or until the minutes begin to flash.
5. Use the “Up” and “Down” arrows to select the correct minute.
6. Tap the “Clock” button to switch to hour and use “Up” and “Down” to select the correct hour.
7. Tap the “Clock” button again to edit the day.
8. Use the “Up” and “Down” arrows to select the correct day number:
1 = Mon 7 = Sun.
9. Tap the “Clock” button to save your time and date settings.

- 🕒 - Clock Button

Step 2 Advanced settings

1. To access advanced settings switch the unit off by tapping the “Power” button.
2. Then press and hold both the “Power” and “Menu” button.
3. Tap the “Menu” button to switch to Sensor mode (2SEN) and set to OUT
4. Tap “Menu” x3 to switch to Frost Protection Mode (SLrP).
5. Set this to “On” using the “Up/Down” arrows.
6. Tap the “Menu” button to set your program days.
7. Tap “Up/Down” to set the program days.
8. Program options include:
 - 6 days same & 1 separate day
 - 7 days same
 - 5 days & weekend (recommended)
 - Program off
9. Tap the “Menu” button and switch off to save your settings.

Step 3 Manual mode

1. You can switch between Manual and Schedule by tapping “Menu”.
2. When in Manual mode, set a target temperature manually using the “Up/Down” arrows.
3. When the target temperature is set above the ambient temp, you will see the HEAT symbol (flame) below the target temp.

Step 4 Advanced settings

1. Tap "Menu" to switch the unit into Schedule mode.
2. You will see both the CLOCK and HOUSE symbols displayed.
3. Press and hold "Menu" for 7 seconds to edit your schedule.
4. Firstly, set the start time for period 1 using the "Up/Down" arrows.
5. Tap "Menu" to save your start time and set the Comfort Temperature to between 20 and 25°C.
6. Tap "Menu" to advance to period 2 and select the desired time using "Up/Down".
7. Tap "Menu" to save your start time and set the Eco Temperature between 18 and 20°C.
8. Tap "Menu" to advance to period 3 and select the desired time using "Up/Down".
9. Tap "Menu" to save your start time and set the Comfort Temperature to between 20 and 25°C.
10. Tap "Menu" to advance to period 4 and select the desired time using "Up/Down".
11. Tap "Menu" to save your start time and set the Eco Temperature between 18 and 20°C.
12. Tap "Menu" to advance to period 5 and select the desired time using "Up/Down".
13. Tap "Menu" to save your start time and set the Comfort Temperature to between 20 and 25°C.
14. Tap "Menu" to advance to period 6 and select the desired time using "Up/Down".
15. Tap "Menu" to save your start time and set the Eco Temperature between 18 and 20°C.
16. Now you have a set schedule for 5 days. Tap "Menu" to set your weekend heating.
17. Select a later start time if you like a lie in. This time will apply to both days.
18. Tap "Menu" to save your start time and set the Comfort Temperature between 20 and 25°C.
19. Tap "Menu" to save your temperature and advance to Period 2.
20. Set the desired start time and set the Eco Temperature between 18 and 20°C.
21. You should now have a complete 7 day heating schedule!
22. Simply tap "Power" to activate your schedule and you're done.
