ARTISAN

PANEL DOOR COLLECTION

For over 20 years, Ahmarra have been making doors for customers who appreciate quality.

The new Artisan collection is a stunning range of doors that will add a further touch of luxury to your home or business. The collection includes our most successful panel door designs, which can all be individually tailored to complement your interior design.

Why should you choose an Artisan panel doorset?

QUALITY We use the finest materials, cutting edge technology and traditional craftsmanship to guarantee exceptional standards.

BESPOKE You select the style, the material, and the finish from a wide range of options, creating the perfect look for your door with limitless possibilities.

GREEN We care about our environment, our materials are FSC[®] and PEFC certified and built to last for generations.

BRITISH Made in Britain to the highest quality standards, our range includes both traditional and contemporary styles to perfectly complement your surroundings, we are proud to fly the flag for UK manufacturing.

DOORS

DOOR CORES

Our solid core doors combine the look and finish of solid timber with the stability and durability of an engineered core. One of the benefits of using this type of core, is the ability to select a different design for each side of the door, to suit different room styles.

DOORSETS

A doorset is a completely assembled frame and door ready for immediate installation onsite.

This can minimise the time spent on installation and maximise the quality and appearance of the finished product.

FACINGS & FINISHES

We offer a full range of decorative facings and finishes for our doors and full information on the options available can be found in our separate brochure.

If you require more in depth information, our team are happy to offer you advice and samples if required.

STANDARD PANEL MOULDINGS

Mouldings (or beads) can be selected from our traditional designs or we can match a profile if you have your own design.

PANEL OPTIONS

We offer both flat panel and raised and fielded panels to suit the design of the door.

Both are constructed from timber and offer the perfect combination of classic contemporary styling and high quality traditional construction.

Above: Moulding; **SPM23**
Right top: Door style; **Windsor (4A)**, Veneer; **American Black Walnut**, Finish; **Tinted Pigmented Lacquer**, Moulding; **SPM21**
Right bottom: Door style; **Sandringham (1A) Glazed**, Veneer; **Walnut**, Finish; **UV Lacquer**

IRONMONGERY

We offer a complete ironmongery service to complement your choice of door and we can advise you on the most suitable options and components.

In order to meet our clients specific design requirements, we work with a select number of ironmongery specialists to create an ironmongery schedule for every project.

If you have already selected your own ironmongery, we can arrange for it to be factory machined and fitted to accommodate your choice.

VISION PANELS

A number of our door styles are available with standard glazed panels. Alternatively, we can accommodate bespoke designs if required.

Where vision panels have been specified, we will offer advice on selecting the correct type of glass to maintain fire and acoustic performance.

Above: Door style; **Blenheim (2B)**, Veneer; **Ready primed Eco-Veneer**, Finish; **Semi-Matt Black Lacquer**
 Below: Door style; **Chatsworth (6B)**, Veneer; **Ready primed Eco-Veneer**, Finish; **White Factory Painted**

FRAMES

We offer a range of standard frame designs, we are also able to accommodate specific moulding detail if required.

ARCHITRAVES

Architraves are available in standard or bespoke profiles and are normally supplied in lengths to be cut at site.

Please refer to our website or speak to one of our experienced designers for more information on the options available.

FIRE RESISTANCE - Q-MARK

Fire doors save lives and protect property and it is vital that they are manufactured and installed correctly. Ahmarra are proud to be certified members of the BM TRADA Q-Mark Fire Door Scheme and Fire Door Registered Installer Scheme. This comprehensive certification for timber fire doors ensures that performance, production and installation continue to be regularly checked through audit testing and inspections. We can supply fire doors in FD30 and FD60 fire resistance ratings.

ENVIRONMENT

We share our customers' concern for sustaining the Earth's resources. We only use wood that is legally logged and from responsibly managed forests and our materials are certified by the FSC® (Forest Stewardship Council) and the PEFC (The Programme for the Endorsement of Forest Certification).

RECYCLING

Waste will be kept to a minimum and recycling techniques will be used wherever possible. This includes using all waste wood to heat our factory and provide process heat.

FACTORY PROTECTION

Through our experience of site installation and the damage that can occur during the building process, we recognised the need for good on-site protection. We now offer full site protection applied in the factory that will allow the door to function normally (open and close) but will last until the end of the project when it can be safely removed. In addition we are happy to recycle the protection at no extra cost.

ahmarra

DOOR SOLUTIONS

Ahmarra are one of the UK's leading architectural door and doorset manufacturers, covering all sectors including hotel, airport, commercial, health, education, heritage, leisure and luxury homes.

Our doors have graced some of the UK's finest interiors, from private homes to luxury hotels and commercial buildings. Our client list includes Grange Hotels, InterContinental Hotels, Apex Hotels, Royalton Homes, The Guildhall, Tate Modern and the Royal Albert Hall.
