The Clos Bike rack is manufactured from steel. Its composition is made from two laser cut sheets and coupled with a spacer.

The bike rack can offer a distinctive design by being customised with any writing or logo as the upper part of the sheets can be laser cut to any desired motif.

The Clos can also be used as a modular barrier.

Ground fixing is with bolts.

Specification:

- Height: 950mm
- Length: 250mm
- Width: 100mm
- Depth: 20mm
