Design: 'Conic'

Designer: PearsonLloyd

Luke Pearson and Tom Lloyd who first met while studying Furniture Design and Industrial Design respectively, at London's prestigious Royal College of Art, did not form their multi award winning product and furniture design consultancy until 1997, having spent a number of years working independently of each other for highly acclaimed design studios. Both derive great joy and excitement from what they do; the surprises that they find along the way; materials and processes; team working; users and places; and pursuing the essential. They have created solutions for a variety of International clients, including manufacturers, consumer brands, and government organisations and are one of the most highly respected studios around today.

Features:

Conic is a refreshing, eye catching and exciting take on various conical forms used in both, contemporary and previously explored areas of soft seating over the decades. The tub chair, lounge chair, and chair with integral headrest, carry the same shared aesthetic, essentially in two sizes of conical, moulded foam shell. Bases are polished chrome wire forms, with the tub version being more upright to allow for meeting and dining use. Swivel base versions, of circular flat steel plate with central column, add to the fun. Conic's shape and form provide excellent and inviting levels of comfort with an almost domestic appeal, complemented by a family of related low tables.

Finishes:

Wire frames are finished in polished chrome as standard with white plastic feet. Swivel, pedestal disc bases are also finished in chrome as standard. Conic can be upholstered in a wide range of contract quality fabrics or leather, but these ideally require a degree of stretch. Vinyl does not lend itself to this design.

Marketplace:

These are very contemporary pieces suitable for a myriad of uses and spaces in all manner of markets and environments, from funky breakout spaces, to lounge style dining, in leisure, retail, hotel and corporate installations. This is a versatile design, which works in informal scattered arrangements and clusters with low tables or with the tub chair in dining or meeting use around a dining height table. There is clearly a domestic appeal to this range as well, especially with the iconic looking lounge chair with headrest.

Products available in range

A630
Tub chair
Upholstered seat
Polished chrome wire frame

Dimensions:
Overall 810h 730w 660d
Seat 490h
Weight 11.5kg

A631
Lounge chair
