

# HUSH FOAM ABSORBER 50

Designed to eliminate echoes and sound reverberation, Hush can provide acoustic absorbers in a variety of stylish finishes. Whilst creating a tailored interior design, the acoustic absorber will provide a practical and efficient way of dampening sound reverberation within rooms, halls, corridors and virtually any other internal space.

The Hush Foam Absorber 50 is a Class A Absorber that works using a specially formulated 50mm thick acoustic foam giving it a stylish finish to blend into the structure it is applied to.
