

HUSH ACOUSTIC & INTUMESCENT SEALANT

Hush Acoustic and Intumescent Sealant & Adhesive is specifically formulated for fire rated and acoustic sealing and bonding within the Hush acoustic systems. It is to be used to seal room perimeters, surface penetrations or wherever there is a need for an acoustic seal to be made.

It has been confirmed by acoustic testing that sealing all air paths in a separating floor or wall construction will help to ensure acoustic performance levels are met. Sound will pass through any gaps therefore the Hush Acoustic Sealant is a integral part of any acoustic system.

PRODUCT DATA

- 900 ml nossled tubes sold singularly or in cartons of 9. Jumbo Sealant gun required which is also available.
- Application - General gap filling in acoustic systems.

SUITABLE FOR:

[VIEW ON OUR WEBSITE](#) ➤

FEATURES

- ✓ Versatile and Economic
- ✓ Designed to improve acoustic performance with the Hush Acoustic Systems by sealing air leakage points.
- ✓ Fire Rated
- ✓ Acoustically tested

PERFORMANCE

- ✓ Provides up to 5 hours fire resistance, tested to BS 476
- ✓ Acoustic rated to BS EN ISO 140/3
- ✓ Tested for air permeability to EN13141-1
