art/design/sculpture

Ideal Standard/Børma/Jado/Sottini

Art, Design, Sculpture

Three words, one ideal – excellence in form and function.

‘Art, Design, Sculpture’ brings together the best of four collections of porcelain and metalware: Ideal Standard, Børma, Jado and Sottini. Each collection represents the highest quality design from Europe, each having its special character deriving from its country of origin.

Each bathroom piece is made from the highest quality porcelain. The taps and mixers use the latest engineering and ceramic disc technology to control water flow with total precision.

All metalware, accessories and furniture are guaranteed for five years. Porcelain is guaranteed for a lifetime.

Ideal Standard has been commissioning internationally famous designers such as Paola Tilche, Gae Aulenti and David Chipperfield to design bathroom porcelain, taps and mixers for many years.

More recently, other designers have produced collections for Ideal Standard including Marc Newson, Cornelia Thies, Neunzig Design and ARTEFAKT.

Marc Newson is internationally acclaimed for his aesthetic vision and uncompromising originality. Always innovative, Newson's originality has been recognised by his work being exhibited in the Museum of Modern Art in New York, the Design Museum in London and the Musée des Arts Décoratifs in Paris.

Each piece in the Art, Design, Sculpture collection, whether it is fashioned from porcelain or cast in solid brass, is a culmination of a design process which can take up to three years.

Deep blocks of porcelain and metalware have been formed into a major collection of sculpture in white and chrome by Marc Newson, one of the world's leading designer artists.

Ideal Standard Hydro Baths

Ideal Standard Hydro provides the ultimate bathing experience tailored at the touch of a button, thanks to the innovative Pebble control. The sensations of hydromassage can be combined with holistic chromotherapy for total relaxation, restoration or reinvigoration.

Pebble control

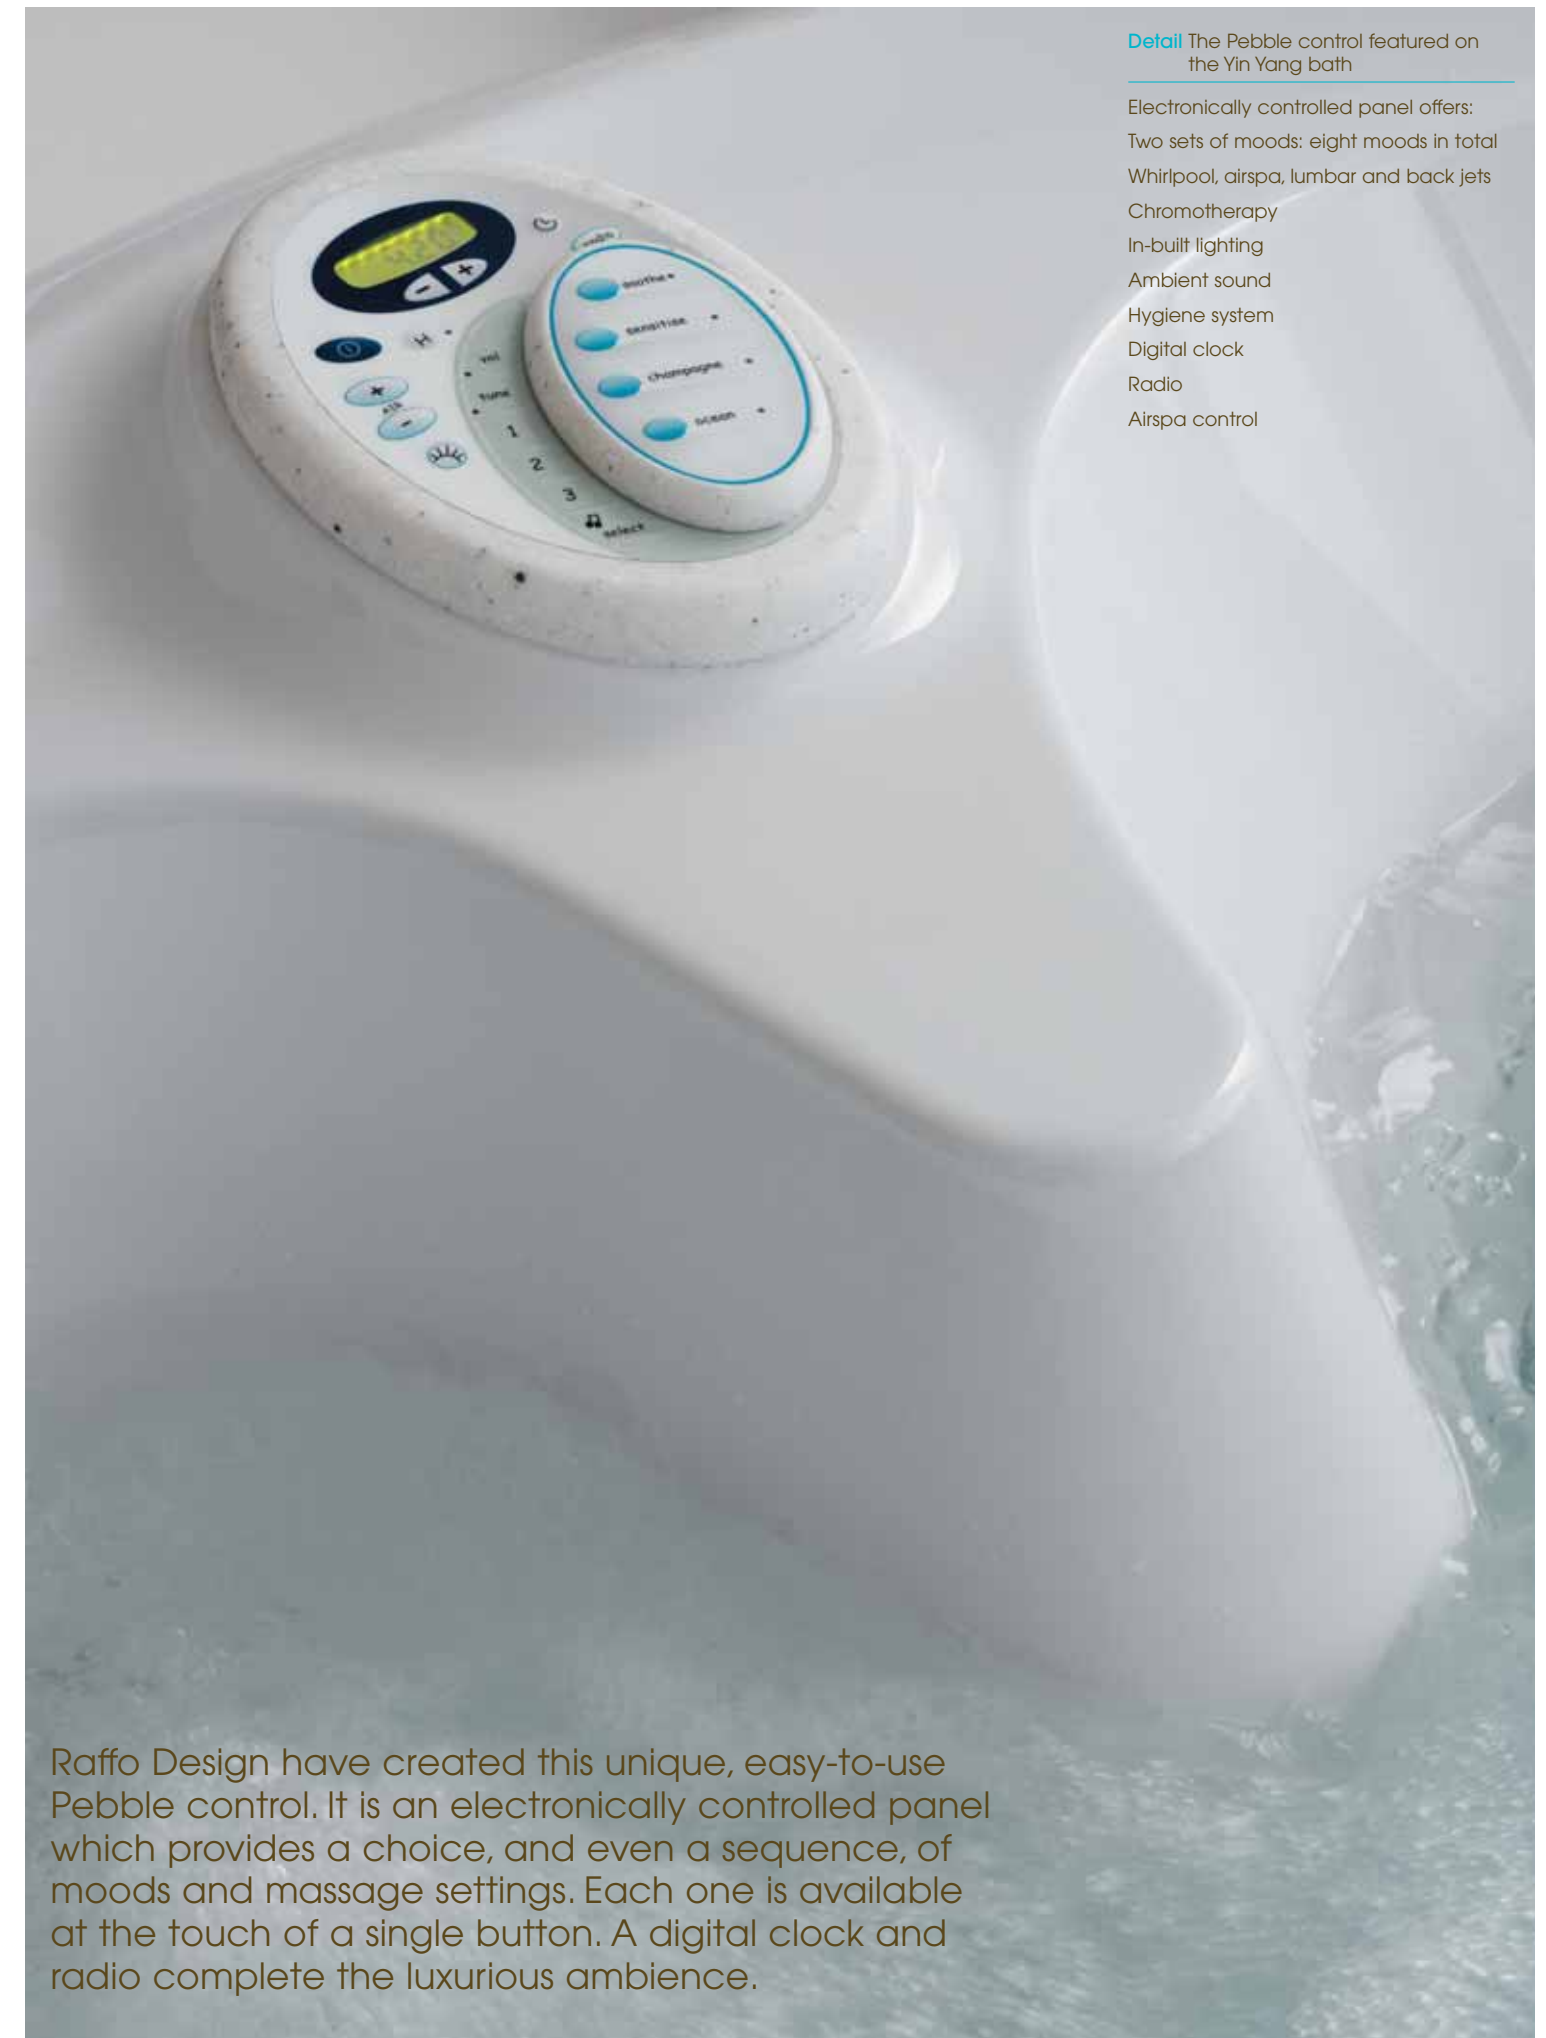

Chromotherapy

The benefits of hydromassage have been acclaimed for centuries. The therapeutic effects of water to promote health and wellbeing are heightened by hydro technology. Quality whirlpool jets offer precise intensity, direction and coverage through water and air. They are designed to align with the body, and focus on major muscle areas and the feet, to detoxify, fortify and stimulate.

All Hydro baths feature up to eight different moods: one-touch, pre-programmed settings that deliver sensations ranging from soothing to revitalising to invigorating.

Chromotherapy lights illuminate the bath in a choice of colours to stimulate or calm and help the body regain its balance.

Detail The Pebble control featured on the Yin Yang bath

- Electronically controlled panel offers:
- Two sets of moods: eight moods in total
 - Whirlpool, airspa, lumbar and back jets
 - Chromotherapy
 - In-built lighting
 - Ambient sound
 - Hygiene system
 - Digital clock
 - Radio
 - Airspa control

Raffo Design have created this unique, easy-to-use Pebble control. It is an electronically controlled panel which provides a choice, and even a sequence, of moods and massage settings. Each one is available at the touch of a single button. A digital clock and radio complete the luxurious ambience.

Ideal Standard Yin Yang Bath

1 Yin Yang bath
The electronic and manual bath both offer double hydromassage, airspa jets and hygiene system.

- Yin Yang E – Electronic [L0440AA](#)
- Eight moods: champagne, ocean, sensitise, circulate, invigor, lumbar, tone, soothe
 - Individual electronic controls on both sides
 - Whirlpool, airspa, lumbar and back jets
 - Chromotherapy
 - Ambient sound
 - Digital clock
 - Radio
 - Light

- Yin Yang M – Manual [L0447AA](#)
- Whirlpool jets
 - Airspa jets

[Ideal Standard Yin Yang Bath](#)
Available in chromium plated only (AA)

The Yin Yang E is electronically controlled, thanks to the 'Pebble', and offers invigorating moods on one side and gentler options on the other.

1

The Yin Yang Bath is designed for two people and based on the Chinese symbol of dark and light, male and female. Yin Yang E offers two independent hydromassage systems while Yin Yang M has a whirlpool on one side and air spa on the other. Either model can be sunk into the floor for streamlined elegance or built into a plinth.

Set details
Yin Yang hydromassage whirlpool bath with electronic controls

Ideal Standard Hydro 300/200

1 Hydro 300
A one or two person luxury corner bath. All bath models equipped with hygiene system.

Hydro 300 E7 – Electronic [L0450AA](#)

Hydro 200 MW right hand – Manual [L0600AA](#)
Hydro 200 MW left hand – Manual [L0607AA](#)
• Whirlpool jets

Ideal Standard Hydro Baths
Available in chromium plated only (AA)

The Hydro 300 creates a characterful corner-bathing environment. It can be used as an indulgent and spacious bath by one person, with up to seven different mood settings to experience.

Or it can be used as a bath with an accompanying seat for a second person to enjoy a powerful back or foot massage at the same time.

The Hydro 200 is a familiar rectangular bath that fits easily into existing bathrooms and uses intelligent technology.

Different mood settings can be generated at the touch of a button on the state-of-the-art Pebble control. The jets are positioned close to the key muscle areas to deliver a more effective and pleasurable hydromassage.

Børma Cubic

Available in chromium plated only (AA)

Suitable for high pressure installations only
(min 3.0 bar max 5.0 bar)

Cubic has been designed by Friis & Moltke Design. Geometric shapes inspired by architecture are formed from solid brass and then plated in chromium to give a smooth and reflective finish.

Jado is a collection of the most beautiful bathroom mixers, accessories and glass washbasins. Cast from solid brass and plated in gold or chrome, Jado is hand-finished to perfection.

Each of the designers of New Haven, Glance, IQ and Amadea have pushed the boundaries of bathroom design to create products of outstanding originality and innovation.

IQ metalware and accessories are designed by [Matteo Thun](#) who was a co-founder of 'Memphis', the influential design group. He works out of Milan and is well known for his restrained styling and reserved elegance in his approach to product design.

Detail Jado New Haven single lever washbasin mixer L4000

2 Jado New Haven single lever cloakroom washbasin mixer [L4051](#)

3 Jado New Haven extended base single lever washbasin mixer [L4052](#)

4 Jado New Haven single lever bidet mixer [L4016](#)

5 Jado New Haven exposed single lever bath/shower mixer [L4010](#)

6 Jado New Haven single lever bath/shower mixer [L4008](#)

Jado New Haven

Available in chromium plated only (AA)

Suitable for high pressure installations only (min 1.0 bar max 5.0 bar)

Crisp clean lines with a strong architectural style characterise New Haven. The stepped profile and smart single lever contrast beautifully with the curved sweep of the mixer.

which is suitable for low pressure installations
(min 0.1 bar max 5.0 bar)

For shower valve operating pressures see page 100

Detail Jado Glance three hole washbasin mixer H2088

The central design theme of Glance is a rectilinear spout curved in a graceful arc. The simple lever set behind the mixer gives a distinctive minimalist look.

Matteo Thun has created elegant modernity in the Jado IQ metalware collection through the total simplicity of the design. The wall mounted taps and mixers are the central piece of the range allowing the washbasin freedom from any surface mounted fittings.

The Sottini brothers began making bathroom products over 70 years ago applying their Italian expertise to bathrooms. The emphasis on good design – a recurring and enduring Italian theme – as well as skilled craftsmanship, laid down the principles of Sottini: elegant form with efficient function.

Today, Sottini bathrooms are designed by internationally recognised European designers such as Robin Levien of Levien Studios (London), Renzo Beltrami and Claudio Fait (Milan) and Wolfgang Muller-Deisig (Berlin).

Detail Artefact basin mixer, chromium plated A3666 AA

The Sottini collection includes numerous porcelain and metalware ranges which are fully illustrated in the Sottini bathroom sculpture brochure.

For brochure enquiries telephone 0800 591586 or visit www.sottini.co.uk

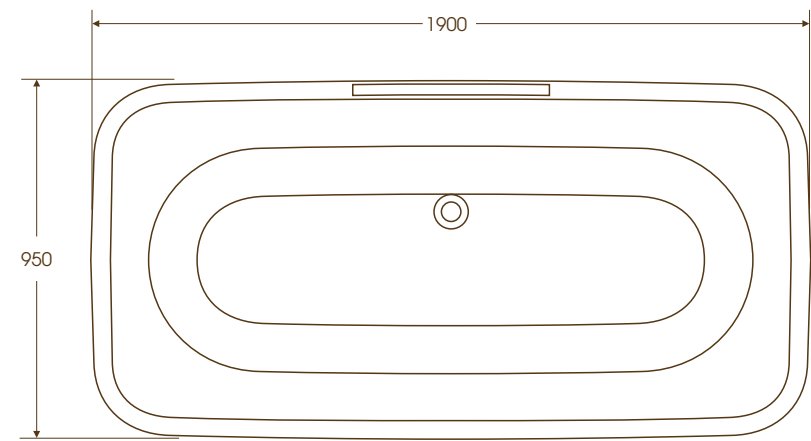

Four of the fourteen collections featured in the Sottini bathroom sculpture brochure.

Choosing a shower

Do you have ...

An instantaneous gas water heater or "combi" boiler?

An airing cupboard with a hot water cylinder?

An airing cupboard with a hot water cylinder with a suitable shower pump (minimum 1.0 bar)

A balanced high pressure water system?

Guarantee

Our confidence in the quality and reliability of art/design/sculpture products enables us to guarantee all ceramic products (including accessories) for a lifetime and Idealcast and Idealform acrylic baths for twenty-five years from date of purchase.

Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. The guarantee covers products in domestic use by the consumer and not commercial or business use. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation. 1 All ceramic products (including accessories) are guaranteed for a lifetime. 2 Idealcast and Idealform acrylic baths are guaranteed for twenty-five years from date of purchase. 3 Shower enclosures and bath screens are guaranteed for ten years from date of purchase. 4 Whirlpool and Airspa baths, showers, bath panels, mixers and taps, wc suite seats and cistern fittings are guaranteed for five years from date of purchase. 5 Parts (including push button flush valves and blower power packs on Whirlpool baths) are guaranteed for five years and will be replaced if found to be faulty. The guarantee does not cover general wear and tear. 6 When your bathroom has been satisfactorily installed and is working well, please ensure you register your guarantee. 7 The guarantee is transferable - it applies to the product not the purchaser - provided guarantee registration details are passed on to the new owner. 8 You can register for guarantees on a bathroom bought on your behalf by a plumber or builder. 9 Applies to UK and Republic of Ireland only.
