

100% SOLID HARDWOOD
FLOORING

PRODUCT SELECTOR

NOT ALL WOODEN FLOORS ARE THE SAME

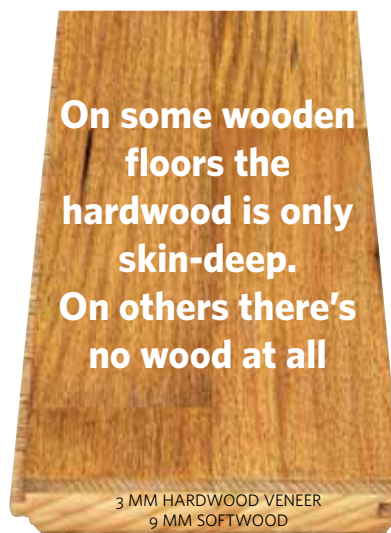

Many floors are deliberately designed to look like a Junckers floor but their beauty is only skin-deep. Many so-called 'hardwood' floors actually have more soft wood than hardwood, while plastic laminate floors trying to create a wood-effect are only superficially similar to the real thing. You only have to walk on them to feel and hear the difference!

Junckers, on the other hand, is natural hardwood through and through. That means it looks better and lasts longer than any cheap alternative. What's more, unlike plastic laminate flooring, you can sand and reseal your Junckers floor to keep it looking beautiful. Many believe that Junckers flooring actually gains character with age and with reasonable care, will last a lifetime.

A one hundred percent Junckers floor will also increase the value of your property because these days people increasingly appreciate the difference between what's real and what's fake.

Nothing compares underfoot to the feel and warmth of a Junckers floor, and it's nice to know that our flooring comes from a naturally renewable resource. Our Beech, Oak, Jarrah, and Ash flooring comes with the backing of the PEFC certification scheme. Our factory in Denmark is both PEFC and FSC Accredited.

Junckers is the only company to offer its own complete range of oils, lacquers and a comprehensive selection of accessories including solid hardwood mouldings especially designed to realise the full longevity and decorative potential of Junckers flooring.

Installers Note: Every Junckers product is manufactured from selected material and is subject to the Company's stringent quality control procedures. The Company cannot take responsibility for the installation of their systems, which is dependent upon the condition of the sub-floor and the standard of work of individual contractors.

POINTS TO REMEMBER:

- Junckers floors are not suitable for bathrooms or other very wet areas.
- Wood is a natural product, which responds to changes in temperature and humidity. To minimise problems ensure that the room in which flooring is fitted is heated and ventilated according to the season and is not left as an unused or unoccupied space.
- Unlike man-made flooring, every piece of timber is slightly different to look at. These differences add 'character' and will not affect performance.
- Junckers is also perfectly suitable for use with underfloor heating. Contact Junckers for detail and advice.
- Please contact Junckers for further information or for advice on laying our floors.

A WEALTH OF POSSIBILITIES

The range of Junckers 100% solid hardwood floors features a fine selection including ash, merbau, maple, oak, jatoba and uniquely, press-dried beech. A range of colours, from vivid and light to golden shades and exotic dark. Our woods meet two overall criteria:

- 1) beautiful colours and grain patterns only possible with real solid floors and
- 2) long-term stability and durability.

Most of our woods are available in two designs: wood strip, and wide boards. This makes it possible to create almost any visual expression - and at the same time get the full benefits of a structural floorboard in terms of unsurpassed functionality.

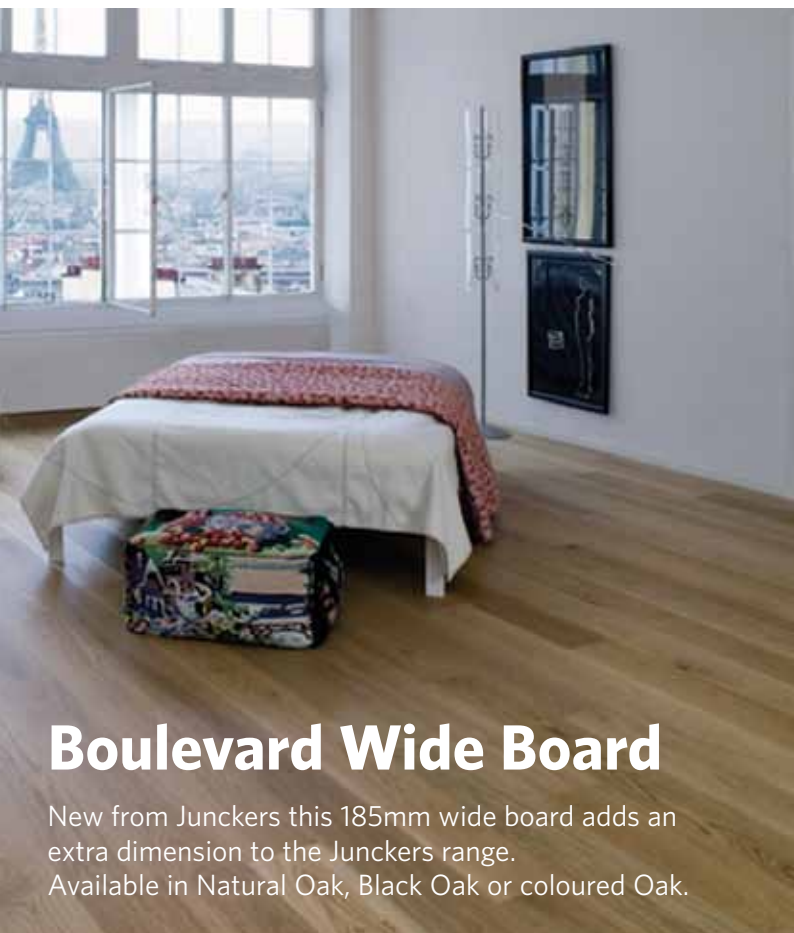

SHIPSDECKING - FEEL THE SEA...

You will get a quite different and beautiful wooden floor if you choose Shipsdecking which is a classical floor with a characteristic and exclusive appearance. The Shipsdecking look enhances each individual board and gives the floor a harmonious and robust expression. Between each board there is a black, flexible neoprene strip which in combination with the solid boards gives any modern home a maritime and elegant atmosphere. Shipsdecking is available in all types of timber, grades, and surface finishes.

If you select Junckers Shipsdecking, the neoprene strip absorbs the movement in the floor so that it looks the same all year round. Your thoughts naturally turn to hot days at seaside. Almost as if you were there yourself... all year round

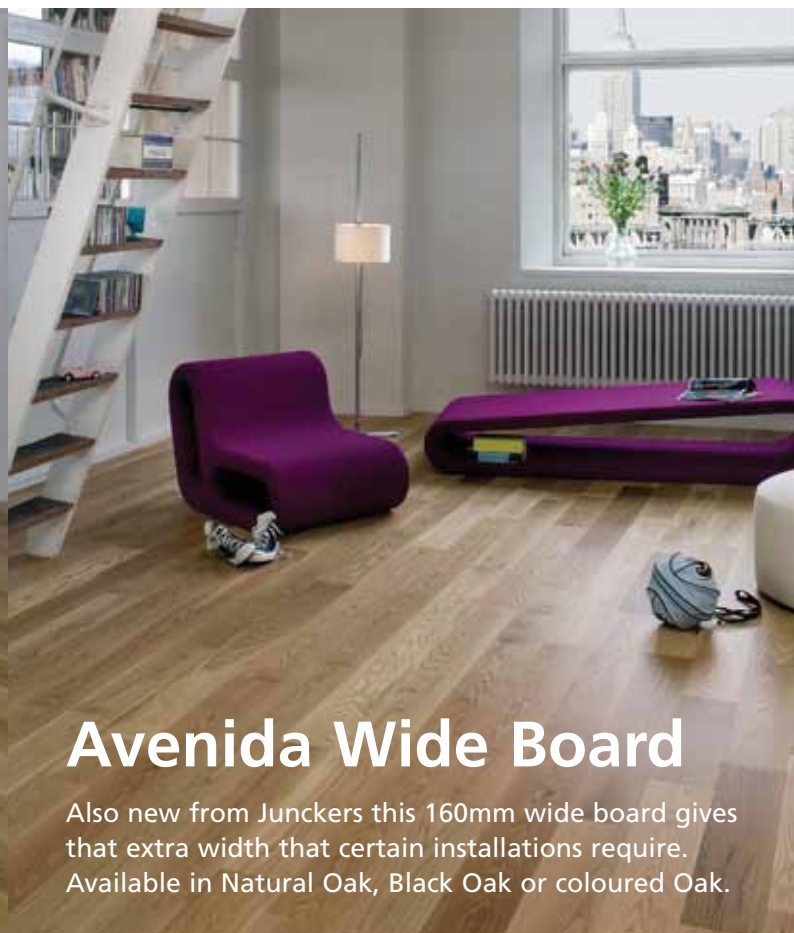

UNIQUE FLOOR FOR UNIQUE INTERIOR DESIGN

Why always choose the obvious floor when everything else in your home is special? REAL, REFLECTION and RICH are three unique ranges which comprise the Soul+Collection - beautiful and natural floors full of life and soul.

MAPLE

Maple has a very uniform and gentle grain pattern and the natural light colour gives a very exclusive floor.

Classic

- 22mm

Variation

- 22mm

Classic grade. An even uniform clean look, with some fine grain patterning and minimal colour variation between the staves and boards. Some very small black pin knots can be seen along with very fine surface featuring.

Harmony grade. A natural appearance. More graining and colour variation between individual staves and boards, More prominent vibrant knots and surface features such as fine hairline splits in the surface. Any open knot is factory filled.

Variation grade. A rustic look with unlimited natural colour variation and more prominent grain patterning between the individual staves and boards. Larger characteristic knots on the surface and edges, and surface hairline splits. More knots are factory filled. Some texture can be felt across the surface of the larger knots.

Note: Style charts are available for all products.

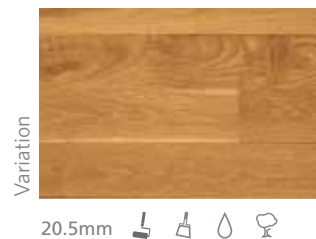

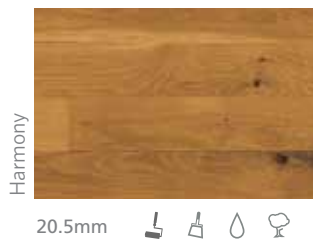

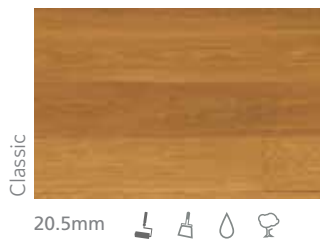

Timberland, Oak Variation

JUNCKERS WIDE BOARDS - 129 MM WIDE

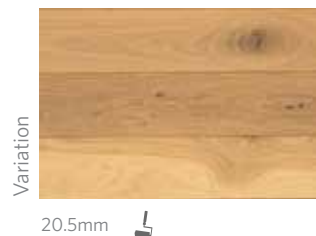

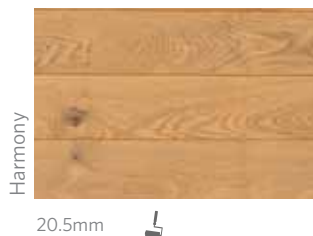

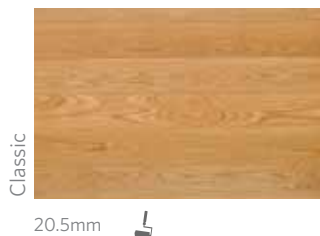

OAK

Oak wide boards bring out the grain pattern of the timber and have an elegant, robust appearance.

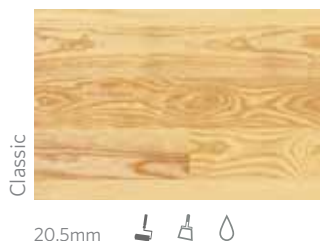

NORDIC OAK

Nordic Oak has a white toned surface applying Nordic elegance to the floor and enhancing the beautiful structure of the wood.

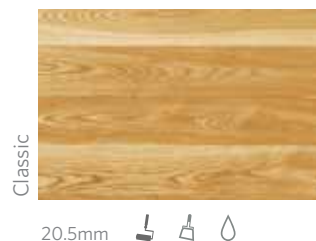

LIGHT ASH

Ash is a luxurious wood ranging from very pale to light golden. Over time, Ash achieves a deeper golden hue that enhances the uniqueness and beauty of its natural grain.

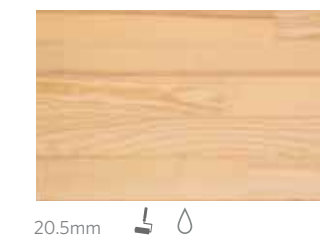

DARK ASH

Dark Ash is very distinct and attractive in appearance. The inherent dark browns of the hardwood contrast beautifully with lighter areas in the grain.

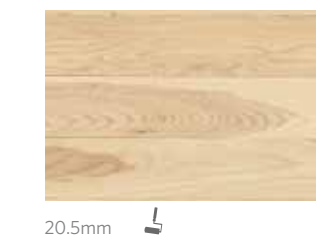

NORDIC LIGHT ASH

Bleached Scandinavian appearance. The white translucent stain highlights the grain of the Ash.

NORDIC DARK ASH

Bleached Scandinavian appearance. The white translucent stain highlights the grain of the Dark Ash.

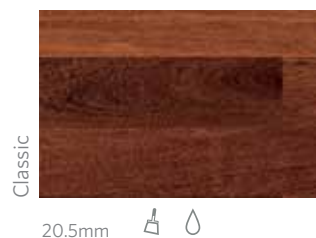

JARRAH

Jarrah is an exclusive rich red hardwood with a modest grain pattern seldom found in other woods.

MERBAU

Solid Merbau wide boards bring out the inherent warmth of this type of timber.

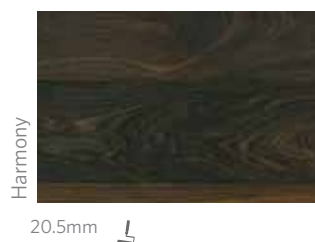

JATOBA

Dark red in colour becoming browner over time.

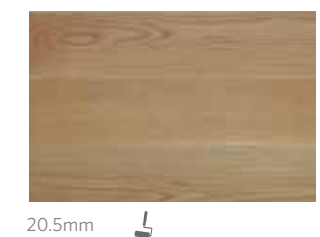

BLACK OAK

Black appearance with some colour variation which highlights the natural grain of the Oak. 129 mm, 160 mm or 185 wide.

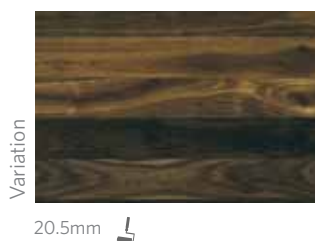

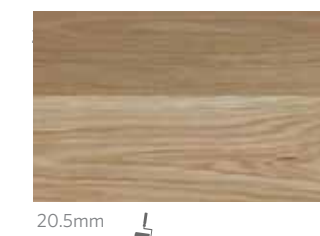

JUNCKERS AVENIDA

Junckers Oak Avenida is 160mm wide. Warm, honey coloured and extremely robust Oak in a wider format.

JUNCKERS BOULEVARD

Junckers Oak Boulevard is 185mm wide. Extra wide for that luxurious look.

Dark Ash Wide Board

JUNCKERS 2 STRIP FLOORING

For more information on Junckers visit www.barbourproductsearch.info

The 2 strip boards are made of 100% solid hardwood and are available in 14mm and 22mm thicknesses. No two trees are the same; because of this and wherever naturally possible we can offer Junckers floors in a range of styles, Classic, Harmony and Variation. This allows you to choose the appearance of the floor to suit your room, which will be unique to you.

-  **Ultra Matt Lacquered Finish**
-  **Silk Matt Lacquered Finish**
-  **Oiled Finish**
-  **Untreated**

- 14mm 

Variation

- 14mm 

3 choices of finish.

All our boards are prefinished within our factory with a choice of either a Silk Matt or Ultra Matt lacquer or an Oiled finish. Silk Matt and Ultra Matt lacquers are pure polyurethane finishes chosen for hardwear and durability. Silk Matt has a satin appearance whilst Ultra Matt is a very matt natural looking finish. Oil is a very matt looking finish achieved by deep impregnation of rich urethane drying oils. Most flooring can also be supplied without the finish for on-site custom finishing.

SOUL+COLLECTION

Soul+Collection has a wealth of funky colours with either a Silk Matt or Ultra Matt lacquer that make the floor durable and easy to maintain.

The Soul+Collection floors are 14 or 22 mm thick and 129 mm wide.
