

**Catering & Purpose
Made Equipment**

Introduction

With 40 years experience, M&G Olympic Products has maintained its position as a leading specialist in the design, manufacture and installation of custom built architectural metalwork including:

- Staircases, Balustrades & Handrails
- Catering & Purpose-made Fabrications
- Sanitary & Hospital Equipment
- Swimming Pool Equipment

All products are manufactured at our two-factory site in the centre of Sheffield which is constantly enhanced with investment in the latest state-of-the-art design and production equipment. We address quality at all stages with frequent monitoring to guarantee that we provide our customers with high quality products that will not be found wanting.

Our design team are happy to work with customers during the early stages of a project to undertake site surveys and produce design solutions to any kitchen requirement. Over the years, M & G Olympic Products has built up an excellent working relationship with other manufacturers of architectural products to provide customers with complete turnkey solutions.

This brochure explains our core competences in the manufacture of catering equipment; it shows examples of our work and how we always work to exceed our customers' expectations.

For further details on these or any other products in our portfolio, please contact our sales office on 0114 275 6009, or log onto our website: www.mgolympic.co.uk.

Design solutions to any specification.

State-of-the-art production technology.

One of our projects.

Custom Built Fabrications

M & G Olympic Products produce stainless steel fabrications for both commercial and domestic markets. We produce both bespoke fabrications to individual client requirements and a standard range of catering benches, shelving, racking, dishwash tabling and sinks.

Inset bowls.

Stainless steel island kitchen suite complete with sliding door cupboard units with under work top.

Curved stainless steel worktop with recess for a chopping board and hob by others.

caption caption

School fast food counter in stainless steel, complete with cladding, preparation tables and stainless steel tubular signage support framework.

Cupboard Units

Base units and wall cupboards can be manufactured to client specification or to one of our standard sizes (details on request). Units can be supplied with a choice of either sliding or hinged doors and a tough polyester powder coating can be applied to the doors to give a variety of colours to a kitchen.

Back Bar Equipment

A range of standard back-bar sinks, drain tops and racking is available to complement most glasswashing machines. M & G Olympics glasswash sinks can be manufactured to fit under bar top counters or can be free standing. Manufactured from 16 gauge 304 grade stainless steel they can be supplied with either single or double bowls and can incorporate racks for baskets.

Bartender units can be designed and manufactured to client requirements.

Drain Top complete with basket rack.

'A' type glasswash unit 1100 long x 555 wide x 750 high to go under a bar.

'A1' type glasswash sink complete with 1 pair of runners to take basket.

'B1' type glasswash unit 1250 long x 650 wide x 1000 high supplied with basket rack or clear under drainer for machine.

3 tier mobile rack (castors optional).

Hot Cupboards

The Olympic Hot Cupboard is designed to complement a wide range of Catering Equipment, Shelving and Racking already produced at our factory in Sheffield. Manufactured from stainless steel, the Olympic Hot Cupboard conforms to current temperature regulations. Supplied with plain or bain marie tops, the Olympic Hot Cupboard is suitable for most applications.

Optional extras include digital temperature readouts, heated overhead gantry, tray slide, pass through doors and castors.

Introduce colour into your food preparation area with a wide range of coloured doors.

Dishwash Tabling

Cleans and dirties dishwash tabling are manufactured to customer requirements and specifications, suitable for use with all popular commercial dishwash machines.

Dirties tables can be supplied with pre-rinse sinks with either taps or spray units, scrapping rings can be incorporated as can basket racks, undershelves and waste disposal units.

Manufactured from 16 gauge 304 grade stainless steel, dishwasher tabling can incorporate 90°, 180° roller tabling. A jointing system is also available for mobile extensions.

Racking

Manufactured from 18 gauge 304 grade stainless steel M & G Olympic racking has fully adjustable shelves.

This system can be bolted together to give an 'L' or 'T' configuration to suit requirements.

Available in standard stock lengths or manufactured to client specifications, also available as a fully welded unit.

Wall Cupboard

The Olympic wall cupboard is manufactured throughout from 1mm thick stainless steel in a polished finish. The doors and sides are double skin panels for strength and hygiene. For ease of wall mounting the cupboard utilises the same method of fixing as the Olympic Shelving System which in turn, allows easy removal for cleaning and decorating purposes. The cupboards are supplied flat packed and can be assembled directly on to the wall.

The internal shelf can be adjusted in height to suit the contents and the stainless steel self-closing hinges opening through 90° provide easy opening and closing of the doors.

The cupboard has been designed to give easy cleaning surfaces with no dirt traps, thus making them ideal for food storage areas in shops, hotels, medical establishments and many other areas where hygiene is one of the utmost importance.

The Cupboards are available in the following ranges.

Length	Without doors	With doors No locks	With lockable doors
300mm	OLND300	OLD300SD	OLD300SDL
600mm	OLND600	OLD600SD	OLD600SDL
900mm	OLND900	OLD900DD	OLD900DDL
1200mm	OLND1200	OLD1200DD	OLD1200DDL

Abbreviations: SD = Single doors DD = Double Doors

Important

Although wall plugs and screws are provided, it is the responsibility of the installer to check the soundness and type of wall surface and to use alternative types and lengths of screws where appropriate. Olympic cannot guarantee universal suitability of the fixings provided.

Shelving Systems

It's as easy as...

1

2

3

The Olympic shelving system is a unique, versatile and simple flat pack system easy to install and dismantle for cleaning purposes. Attractively finished in 18 gauge 304 grade stainless steel for excellent strength, stability and hygiene and a long corrosive resistant life ideal for food preparation where space is at a premium. There are 4 wall fixing brackets per system enabling the shelves to be fixed to uneven wall surface without difficulty.

A range of wall uprights in various lengths from 600 to 1500mm are available from stock.

Both straight and sloping condiment shelves are available in lengths of 1m, 1.5m and 2m in depth of 300mm and 400mm.

Also available are microwave shelves to take both large and small models.

Important - it is the responsibility of the installer to check the soundness and type of wall surface and to use alternative fixings where appropriate. Olympic cannot guarantee universal suitability of the fixings provided.

Air Extraction Systems

M & G Olympic Products air extraction systems are designed to fulfil customer requirement and are individually manufactured in stainless steel or aluminium.

All units can be supplied with fans, controllers, filter housings, traps and all necessary ducting and outlet grills. Provision can also be made during manufacture for return air to the kitchen through either the face of the canopy or via a separate system.
