## EM-DOME 80mm PVC CURB ADAPTOR

### Em-Dome 80mm PVC Curb Adaptor

The Em-Dome 80mm PVC curb adaptor has been designed to improve quality of fit and performance for the Em-Dome Rooflight range. The PVC adaptor speeds up installation time when fitting rooflights to a non-standard size builder's curb – it is also used when ventilation is required.

The Em-Dome 80mm adaptor is a simple and lasting solution to challenging rooflight installation. It guarantees optimum positioning of Em-Dome rooflights to the builder's curbs, ensuring waterproofing integrity and best possible thermal performance and efficiency, and allowing the smooth, hassle-free operation of the ventilation mechanism.

The thermally broken adaptor is manufactured from white extruded polyvinylchloride with a cellular structure profile. This makes it robust and durable, and provides an aesthetically pleasing finish internally.

### Benefits/Features

- Fast and straightforward to install
- Ensures a close, watertight fit with non-standard curbs
- Aluminium weather cowl, installed to the outside, stops all water and weather ingress
- Thermally broken, eliminating cold bridging and reducing the risk of condensation
- Available in every standard size for the complete Em-Dome range
- Various types of ventilation mechanisms can be installed with the adaptor – including trickle and controlled rotating.
- Self-finished PVC internal face requires no further finishing.

### Environment

#### Our policy

In maintaining and developing our business, products and services, we pay careful attention to the following:

- Comply immediately with all applicable laws and regulations concerning the environment
- Develop manufacturing processes and operational procedures that minimise, as far as practically possible, pollution risks to the environment
- Reduce waste generated by our activities and encourage energy conservation, recycling and reuse
- Provide training and support to employees to enable them to maximise their contribution towards the protection of the environment
- Encourage suppliers, contractors and customers to share in our aims to promote good environmental management.

## Quality guaranteed

The Em-Dome 80mm adaptor is designed to be maintenance-free. Any cleaning should be carried out with warm soapy water, avoiding the use of strong detergents, chemicals or abrasives.

Our entire range of Em-Domes and Em-Curbs is guaranteed for 10 years from the date of supply; we fully expect them to last for at least the lifetime of your chosen roofing material.

## Nationwide next-day delivery and full technical support

When you purchase Em-Domes and Em-Curbs, you can expect more than just a product. Our technical team is on hand to offer product-specific guidance, site surveys and condition reports, CAD drawings and NBS specifications for all of our products.
