

**Introducing new Thermonet<sup>®</sup>, now with LayFlat Technology, super high grab self adhesive mesh and our original TwistedTwin conductor cable.**

- ✓ Same unique TwistedTwin cable
- ✓ Low profile cold tail connection
- ✓ Same Lifetime Warranty
- ✓ **NEW** high grab self adhesive mesh
- ✓ **NEW** easier installation
- ✓ Made in our factory in Germany

**FOR RAPID HEAT UP TIME - 200W/m<sup>2</sup>**

Thermonet<sup>®</sup> EXTRA 200W/m<sup>2</sup> is designed for use in more demanding applications such as older buildings with lower insulation levels, or areas where a faster heat up time is required.

Thermonet<sup>®</sup> EXTRA 200W/m<sup>2</sup> is recommended for use in conservatories, wet rooms and swimming pool areas.

When an existing primary heating system is in place, such as central heating, Thermonet<sup>®</sup> BASIC or EZ is suitable for providing additional warmth and comfort.

**ENHANCE EVERY PROJECT**

Enhance your project with Thermonet<sup>®</sup> electric underfloor heating. The Thermonet<sup>®</sup> feeling brings you the ultimate in comfort, luxury and after sales backup.

INCLUDED IN THE RANGE	WHAT'S IN THE BOX?
Thermonet <sup>®</sup> BASIC 100W/m <sup>2</sup>	Thermonet <sup>®</sup> underfloor heating mat
Thermonet <sup>®</sup> EZ 150W/m <sup>2</sup>	Factory test certificate
Thermonet <sup>®</sup> EXTRA 200W/m <sup>2</sup>	Installation guide
Thermonet <sup>®</sup> Shower Tray Heater	Thermostat (if purchased)
Thermonet <sup>®</sup> Wall Heating Mat	Conduit kit

HEATING PERFORMANCE

Thermonet® Electric Underfloor Heating is one of the most efficient methods of heating available.

Depending on individual requirements and building construction, Thermonet® can be installed as the primary heat source in a room. It can also be used as supplementary heating or simply just to take the chill off your floor.

MADE IN GERMANY

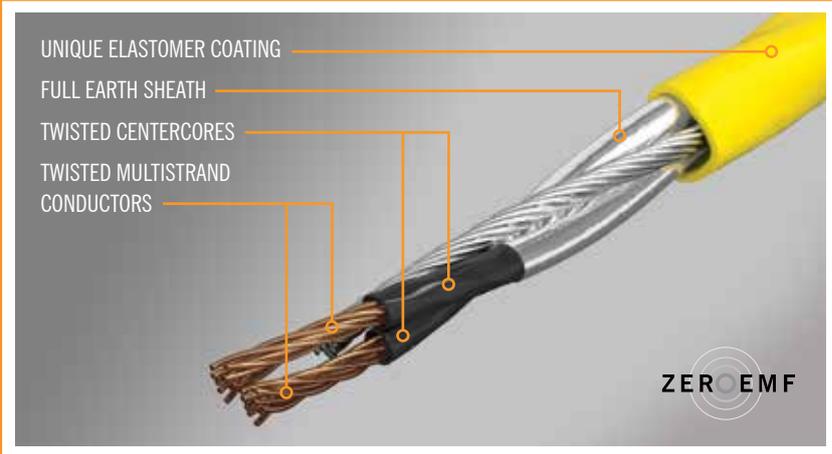

We make every Thermonet® mat in our German manufacturing plant and have full control over the quality of each individual mat.

Stringent quality control tests are carried out throughout the manufacturing process to ensure each and every Thermonet® mat is finished to the highest possible standards.

Every Thermonet® underfloor heating mat is tested in excess of 2500V to ensure total safety and our Lifetime Warranty gives you full satisfaction and peace of mind.

Faster heat up

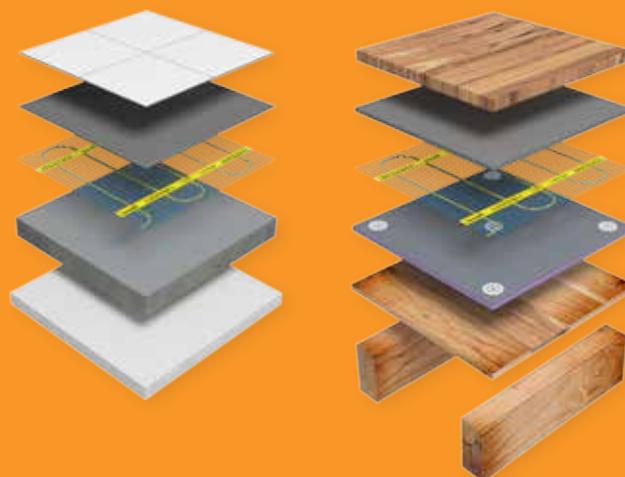

NEW Thermonet 200W/m <sup>2</sup>			
STOCK NO	SIZE (M)	AREA (M2)	OUTPUT (W)
112002	2.0 x 0.5	1.0	200
112003	3.0 x 0.5	1.5	300
112004	4.0 x 0.5	2.0	400
112005	5.0 x 0.5	2.5	500
112006	6.0 x 0.5	3.0	600

112020	20 x 0.5	10.0	2000
112024	24 x 0.5	12.0	2400

Truly unique TwistedTwin conductor cable...

Thermonet are the only underfloor heating mats in the UK to feature our unique TwistedTwin conductors. Most cables on the market have a dual conductor but as you'd expect, Thermonet has that little bit extra.

Our conductors are twisted together which eliminates electromagnetic field (EMF) and neutralises the expansion and contraction of the cable along it's entire length. This extra process results in a more robust, workable, and longer lasting cable. We're so confident in the quality of our products that we cover Thermonet and Vario with a unique Lifetime Warranty for complete peace of mind.

Use with different finishes and substrates...

You can install underfloor heating over timber or concrete substrates under a wide range of finishes including tiles, wood, carpet or vinyl. Always check suitability with your flooring manufacturer. Install a 10mm layer of self levelling compound when using floor finishes other than tiles.

Technical Data	
Width	500mm
Heated width	430mm
Max. thickness	3.5mm
Max. temperature*	29°C
Cable fixing	Taped
Adhesive mesh	Yes

\*Regulated by floor sensing thermostat
