

# Guiding you through the rooflight specification process

Innovative rooflight solutions  
Unsurpassed service

Whitesales®  
Rooflights & more...

### Concept

You brief us on your ideas and expectations.

We advise on current legislation requirements and design possibilities.

### Specification

We produce detailed specification, section drawings, roof plans and design criteria following our discussions with you.

### Pre-tender

We visit your offices or site to finalise the details with you. This stage can include a site survey for refurbishment projects to obtain specific details and dimensions.

### Tender

We support the nominated contractors through the tender process.

### Order process

We finalise the details with you and the successful contractor to make sure you get perfect products delivered exactly when you need them.

### Installation

We deliver your new products to site, provide approved installers if you need them, and oversee the project to successful completion.

### After care

Our service doesn't stop once your rooflights are in place. Our technical after-sales team will be always on hand to make sure you're completely happy.

At Whitesales, we believe in total specifier support. Using our unique methodology, we can help you take your ideas from initial design to total customer satisfaction.

You will find we are always ready with expert advice and technical input in specifying and installing all rooflights and accessories.

That means you will be provided with technical specification, site surveys, condition reports, roof plans, budget costings or fully detailed quotations. What's more, we can provide you with a complete library of product data sheets and CAD drawings as well as NBS specifications.

With over 20 years' experience, we have built up an industry-leading reputation for providing high quality products and outstanding expertise and support. If you would like to see what we can do, just request some of our project case studies.

We are sure you will be impressed.

## Company profile

Whitesales has over 20 years' experience in the manufacture and distribution of speciality flat roofing products. As a company we have the dedication and resource to fulfil the most demanding of requirements throughout the UK. Our experienced and expert personnel have an in-depth knowledge of industry regulations, which ensures we provide up to date advice on fully compliant solutions.

## Sustainability

Sustainable developments ensure a better quality of life for everyone, now and for future generations. To be environmentally sustainable a product must be manufactured and used in a way that minimises its impact on the environment.

Sustainability covers all aspects of a product's impact on the environment. This includes original source of raw materials, the manufacturing process, transportation, construction, life span of the product and eventual disposal and re-use of the material. We invest in ecologically and environmentally-friendly business processes, so our products are created using materials from sustainable sources.

To shed light on your building project, call us now on 01483 271371 or email us at [sales@whitesales.co.uk](mailto:sales@whitesales.co.uk) to request one of our brochures or relevant case studies.
