

HELO CASE STUDY - HAYES STATION: LONDON

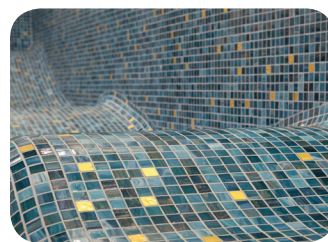

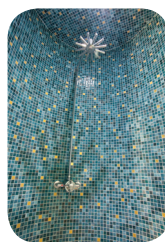

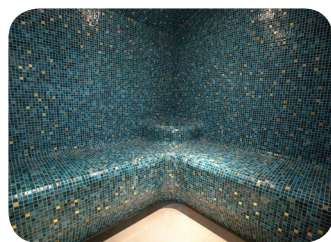

CLIENT: Ballymore Group
SITE: Hayes, London, UK
PROJECT: Hayes Station Road

Helo UK is pleased to announce the completion of The Hayes Station Road site. A large residential development on the main line from Heathrow to London City Centre.

Helo installed a Steam room, Sauna, Feature shower & undulating, heated, poolside benches. The Poolside benches were pre engineered to an exact size to fit precisely between the structural columns.

GENUINE SAUNA & STEAM

PROJECT: HAYES STATION

A: Poolside heated loungers

The undulating loungers run the length of one side of the pool. There is an electrical heating system routed just below the surface which is thermostatically controlled. The heating system was reinforced with matting prior to priming and waterproofing ready to accept the Bisazza 20 x 20mm glass mosaic.

B: Steam room

Detail of the mosaic tiled steam room with discrete steam outlet located in the corner. The steam outlet is part of the 'Helo Wellness System' which mixes steam, air and essence in a plenum chamber before safely entering the room.

C: Feature shower

The Bisazza mosaic detail is carried through into the Feature shower in the 'Snail shaped' space.

D: Commercial Spa

Level deck spa finished in the matching Bisazza blend of glass mosaics.
