Bulletin

Welcome...

The 1st quarter of 2012 has seen record enquiry and project levels for CPS from both nationwide and further afield. The entire team are working with a relentless commitment to always go the extra mile in providing an unrivalled customer experience in line with our Statement of Values as below:

*Simple, Honest,
On-time,
Quality Service.*

We look forward to hearing from you and if you're not already on board with CPS, a warm invitation is extended for you to join our success story.

Jason Hughes
Marketing Manager

Project Spotlight

New Testament Church of God

1000no Asset A20 auditorium seats along with a tiered demountable staging system were recently installed into a prestigious new build church project. CPS ran the whole £250K project from design through to completion, working closely with the architects, contractors and the end client to ensure that an on-time quality installation was delivered.

RFU Twickenham Stadium

Having already carried out extensive work within the Twickenham stadium complex, CPS were recently called upon to supply demountable waterproof anti-slip staging systems to span over the concrete terracing. These are to be used for multipurpose presentation work during high profile matches and as a result of CPS successfully meeting the original brief, the stadium management team are now considering using these throughout a large network of stadiums around the UK.

CPS Hire Division

CPS hire division offers a complete range of seating and staging solutions for all clients, events and venues. The flexibility of the system allows a multitude of configurations to be built to each clients exact requirements, including performance stages large or small, presentation stages, catwalks, tiered stages, tiered seating and ramps etc...

CPS have a team of highly qualified personnel with a wealth of experience on hand offering an unrivalled package and service from the initial enquiry to the finished installation.

Large stocks of equipment are held ready for immediate use and site visits can also be arranged to discuss, design and offer a solution to your event in detail.

2012 Olympic Update

The CPS 2012 Olympic contracts are now approaching the finishing line!

Thanks to experienced team leaders and managers, we are pleased to announce that all has run smoothly and on time. We look forward to giving you an insight into this prestigious project, shortly to be the broadcast centre for the whole World, in our next issue.

FIRA

FIRA Accreditations

Here at CPS, we're not about all talk and no action!

As we believe in only the highest standards of manufacture, many of our products were recently submitted to FIRA for independent testing. All products submitted achieved and passed Test Level 4 (severe category use) which clearly distinguishes and gives CPS a market leading advantage. Copies of certificates are available on request.

Customer Feedback

No matter what size of contract or enquiry, our aim is to provide an unrivalled level of customer satisfaction and service. Recent customer feedback is a witness to this:

A refreshing company with a can do attitude in the face of strict time restraints! Total project value - £370,000.00, 2337no Lecture Theatre Seats.

Director - City Build Manchester Ltd

Everything fine, staging very good and delivery men were excellent. Thank you to your company for solving our problem.

Primary School Head Teacher

Further customer feedback can be found on www.cpsmanufacturingco.com/testimonials

Please contact us on **01302 741888** for more detailed information on these projects.
