

Charcon Countrysetts block paving

Life
80%[†] non-primary materials

Designed to replicate natural granite setts for rural and heritage locations, Countrysetts provide prestigious pedestrian environments with rustic character.

- Contains up to 80% recycled or secondary materials
- Alternative to natural granite rumbled setts
- Size range provides the opportunity to create random patterns and areas of delineation using consistent depths
- Range of sizes can accommodate large scale formal spaces to more intimate areas
- Offers laying cost savings over traditional granite setts due to tighter dimensional tolerances
- Suitable for vehicular overrun if set in concrete.

Applications

Countrysetts are suitable for applications where heavier and more frequent trafficking is envisaged, also for vehicle overrun when set in concrete. Refer to our technical department for further guidance on suitability for given applications.

Manufacturing standard

Countrysetts block paving is manufactured using a wet pressed process and, following manufacture, is split and rumbled and is manufactured in accordance with and complies with all relevant sections of BS EN 1338: Precast Concrete Block Paving – requirements and test methods.

Aggregate Industries fully operates an accredited Quality Assurance scheme, certified to BS EN 9001:2008 which is independently and regularly assessed by BSI (British Standards Institution). All Aggregate Industries manufacturing sites are also certified to BS EN 14001 Environmental Management Systems.

Performance with slip resistance

Not applicable. Due to riven surface slip resistance is deemed satisfactory to BS EN 1338.

Complementary products

Countryside Classic kerb, Andover Textured block paving and Malvern flag paving.

Sustainability and local sourcing

Energy use: Aggregate Industries is at the forefront of sustainability and has committed to reduce carbon emissions by 20% by 2016 based on a 2012 base line.

Recyclable: 100% of the product can be recycled thus reducing the amount of material that is sent to landfill.

Manufacturing location: produced in the UK, with locally sourced materials under strict environmental and social legislation, for local supply.

Responsible sourcing: Aggregate Industries is the first company in the world to achieve accreditation to the BES 6001 Framework Standard for the Responsible Sourcing of Construction Products. Aggregate Industries has achieved an 'Excellent' rating for major product groups. The BES 6001 standard assesses:

- quality management
- environmental management
- health and safety management
- a range of social and environmental issues.

Life

Life is our range of sustainable products and services. For more information please visit www.aggregate.com/life

Key aggregates and recycled content

Countrysetts are manufactured from the finest granite aggregates and mica.

Generic green guide rating*

Concrete block pavers, CBP (80mm) over prepared recycled sub-base - **A rated.**

Concrete block pavers, CBP (80mm) over prepared sub-base - **B rated.**

Policies

Aggregate Industries' policies on the environment and community, health and safety and sustainable solutions for different product applications can be viewed on our website www.aggregate.com

Design and installation

For specific design, installation and maintenance guidance, please contact our technical department on 01335 372222.

Maintenance and cleaning

Aggregate Industries can supply on request advice on specific stain removal and general maintenance, suitable cleaning products and referrals to specialist cleaning companies.

COSHH data

Full COSHH data on the Charcon range of products is available on request. Please call the technical helpline on 01335 372222.

Technical support

Detailed guidance and assistance with the preparation of specification of the Charcon range of hard landscaping products, including model clauses, is available through the sales office. A free technical design service is also available.

For further information, please refer to our technical services on 01335 372222.
