

Higher. Faster. Bigger.
Great choice and flexibility.
Find out what our
Xtralift passenger lifts
can do for you.

Stannah

The introduction of the Xtralift range means you can always specify a Stannah lift that will best meet your requirements.

What can our **Xtralift** passenger lifts do for you?

Our aim is simply to make your life easier, something we have been doing for our customers for over 140 years. We are proud to supply passenger lifts to some of the UK's best known business names. Our customers know the Stannah brand stands for top quality, innovative engineering at affordable prices; meticulous attention to our customers and uncompromising reliability and safety.

Safety first

Safety is our first priority and the cornerstone of our business. In all our lifts each and every element is designed and tested to ensure the highest safety standards. We ensure compliance to relevant regulations and standards, including EN81-1 – Safety Rules for the Construction and Installation of Lifts.

Our installation methods are under constant review to ensure we work safely and do not put anyone at risk during the course of our work. We comply with all relevant safety regulations including the CDM Regulations, and have based our systems on the requirements of the internationally recognised Health and Safety standard OHSAS 18001.

The Environment

We recognise the impact that our business and our products have on the environment. Our Xtralift range uses the latest engineering with oil- and vibration-free gearless technology drive systems, giving excellent performance and energy efficient, economical running costs.

Stannah Lifts are certified to ISO 14001, the internationally recognised standard on environmental management systems.

Environmental initiatives include regular environmental audits, energy reduction programmes, recycling and using specialist contractors to dispose of hazardous materials.

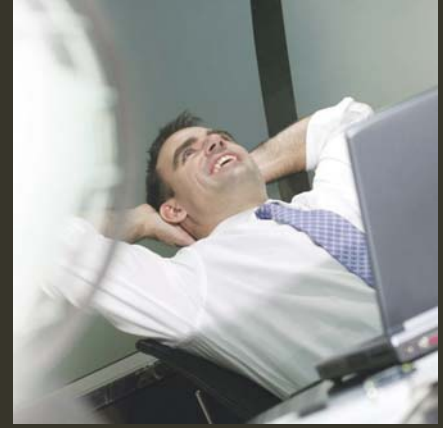

Engineering Expertise

The Stannah family have been in the passenger lift industry for over 140 years so it is not surprising that we are proud of our capability and expertise. Each and every component used in our lifts is engineered using the latest technology. From the electronic control system to the mechanical safety components, the build quality, reliability, durability and ease of use are always fully researched.

We apply the principles of continuous improvement to ensure that we are always delivering better products.

Quality of Service

Customer service is of prime importance to Stannah. We will give best advice and ensure that the product you buy is fit for purpose. Installing a lift can be a complicated process, but we are here to make it easy by assisting you throughout your project, providing technical advice and support to ensure that your installation runs smoothly.

**More is definitely more
when it comes to the
Stannah Xtralift range –
more choice and
flexibility in travel,
speed and lift size.**

Xtralift range and specification

17-33 person

Larger lifts and higher footfalls are now an option from Stannah, giving you choice and flexibility, no matter what your project requirements are. So now you can have all the benefits of a passenger lift from Stannah... but in a larger lift! Plus, the new Xtralift range offers you not only the choice of a larger lift, but also lifts that go higher... and faster too. With space-saving motor room-less technology and superb, efficient performance in even the busiest environments, the Xtralift range can deliver the lift of your choice.

Faster – the Xtralift range offers speeds of 1.0 m/s and 1.6 m/s, delivering people quickly and efficiently.

Further – higher travel is now within reach with a Stannah Xtralift, with its efficient, high performance traction drive.

The space-saving motor room-less Xtralift uses the latest gearless technology. The motor and control are located at the top of the lift shaft and offer high performance levels combined with low noise, energy use and running costs.

Specification

Xtralifts are designed with space-saving in mind, with compact controls at the top of the lift shaft. A fast, efficient installation is ensured by the unique rail system, giving precision, durability and reliability.

Load	17-33 person
Drive	High performance traction drive
Speed	1.0 m/s and 1.6 m/s
Structure	A modular approach means easy installation into an existing or new shaft; fixings at all landing openings are all that are required.
Finishes	A wide range of finishes are available to suit every budget and style – see pages 8-9 for details.

2500

kg capability – 33 person

size options

Choice. Flexibility. Quality.

- Six lift car sizes
- Manufactured to comply with EN 81-1, CE marked and in full compliance with The Lift Directive 95/16/EC
- Oil- and vibration-free gearless traction drive
- Modular design for ease of installation
- Range of attractive lift car finishes
- Ideal for moving large numbers of people quickly

Car sizes and lift options guide

Lift capacity and car sizes:

	17 person	17 person 'stretcher'	21 person	21 person 'stretcher'	26 person	33 person
Load:	1250kg	1250kg	1600kg	1600kg	2000kg	2500kg
Width:	1950mm	1200mm	1950mm	1400mm	1500mm	1800mm
Depth:	1400mm	2300mm	1750mm	2400mm	2700mm	2700mm

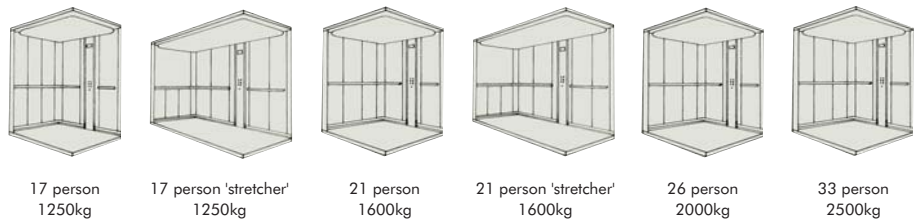

Select the right lift:

By going through each of the steps below, you will be able to select the most appropriate lift for your needs.

1 Capacity

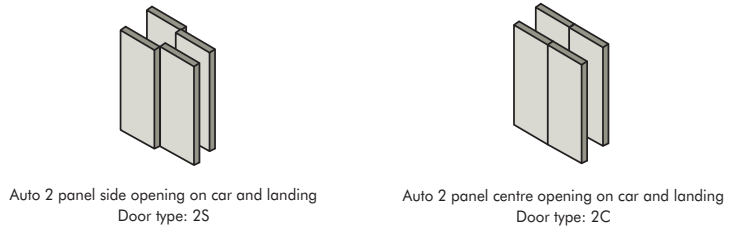

In order to select the right lift car size for your needs, we suggest that the primary consideration is what the lift is to be used for:

- High capacity, heavy usage
- Shopping trolleys or baggage
- Demanding environments
- Multiple lifts required?

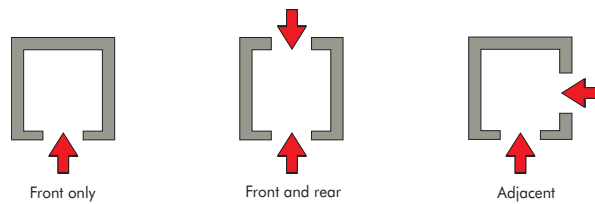

2 Door type and size

- Door widths of 800, 900, 1000, 1100, 1300, 1400 and 1800 are available.
- The choice of door type will affect the shaft size:
- **Centre opening doors** are more aesthetically pleasing but require a larger lift shaft on some models.
- **Side opening doors** are therefore offered as standard on some models as they require a reduced shaft width.

3 Entrance positions

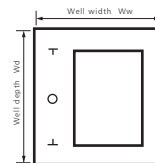

- Front only
- Front and rear
- Adjacent entry is available as a special option on some models – please contact Stannah for details.

4 Shaft size

The shaft size of your lift is determined by various factors, including capacity, door type and opening width, and entrance positions.

For further details such as shaft size, pit and headroom dimensions and loading requirements please call us on **01264 339090** or email us at passengerliftsales@stannah.co.uk

Important Notes:

- Due to our policy of continuous improvement we reserve the right to alter specifications and dimensions without prior notice
- For further technical information please call us or visit our website www.stannahlifts.co.uk

Car finishes and options

Stannah Xtralifts are available in a choice of three finishes, giving you a wide range of options...

Xtralift XS

Cost effective and versatile with a choice of colours

Contemporary, versatile and cost-effective – the **Xtralift XS** finish will fit into any location.

Hairline stainless steel with optional textured or linen stainless steel

Handrail

Stainless steel with curved ends

Optional painted aluminium in light grey (RAL 9006) with curved ends

Mirror

Half height full width mirror above handrail on rear wall (single entry only)
Optional half height mirror on side wall on lifts with through-car, or no mirror

Skirting

Hairline stainless steel with option of anodised aluminium

Floor

Light grey PVC

Anthracite grey PVC

Grey carpet

Supplied recessed by 30mm for flooring by others
Options include light grey or anthracite grey PVC, or grey carpet

Stannah a family of lift expertise

Stannah help people get on with their lives. Whether it's a lift at the station, a dumbwaiter at the coffee shop, a passenger lift at the office, a platform lift at the library, an escalator in the shopping centre, a moving walkway at the supermarket, a goods lift at the pub or a stairlift at home – we are there quietly helping life happen.

227,499

365

days a year call-out

We design, manufacture, supply and install lifts to help life flow. We do this with the utmost care for our customers, our passengers and our staff. Our products are quality engineered, safe and reliable and supplied in the knowledge that we can maintain them 24/7 - efficiently via our service branches right across the UK.

By continually investing in new technologies, new products and our highly trained nationwide workforce we deliver value-for-money excellence. We are proud to be an independent family company whose specialist product and service divisions give our customers expert support right across our portfolio.

Meet the family

Passenger Lifts

Escalators and Moving Walkways

Platform Lifts

Goods Lifts

Lift Refurbishment

More products in the Stannah range

Platform lifts

Our economical platform lifts solve thousands of access problems every day. They are a simpler alternative to a traditional passenger lift for buildings that do not have constant people traffic. Designed to carry up to 4 passengers, platform lifts are supplied in their own structure so can go almost anywhere.

Escalators and moving walkways

Stannah supplies, installs and maintains a range of escalators and moving walkways for applications across the UK. These products are maximising useable space in retail environments and moving people safely and efficiently in busy public areas.

Major lift refurbishment and bespoke lifts

Stannah undertakes special lift refurbishment and modernisation projects, often to maximise the use of new technology and save operating costs. We also supply and install bespoke lifts for unique places, working with our clients to their specifications.

Goods lifts

When it comes to moving anything from hot plates to heavy goods pallets, Stannah can provide the solution. The Microlift is Europe's best selling dumbwaiter for loads from 50kg -100kg. Our Trolleylift service lift can handle loads up to 150kg with floor-level loading when required. When loads up to 1500kg need to be moved the Goodsmaster

range, which includes an attendant controlled lift, is the answer. All our goods lifts help our customers meet or exceed the Manual Handling Regulations.

Lift service and repair

We provide local service, nationwide, from our network of branches across the UK. Our highly-trained engineers look after thousands of lifts 24/7, 365 days a year – our own products and most types of lifts from all other manufacturers.

And last but not least...

Stairlifts

Stannah stairlifts are as stylish as they are practical. Since 1975 over 400,000 units have been sold worldwide, making Stannah global market leaders in stairlifts.
