If every interior detail and design element is carefully selected and there for a purpose, a well designed floor will complete your personal design vision and amplify the total experience of your living space.

You can use the Design Collection to give a classic interior a twist, or to go all out on a design limb with a powerful statement. Delve into the possibilities and put your floor into play with a surprising finish, glow, surface reflection, texture, tone or even colour. But most of all, give the floor some thought.

# TEXTURED COLOURED PLANKS

DESIGN & FASHION UNITED

For more information go to [www.barbourproductsearch.info](http://www.barbourproductsearch.info)

One type of wood. Four collections  
**Endless possibilities**

**Natures own**

Junckers unique brushed oak planks add texture to the floor; pleasing to look at and to touch. Via a special, hard brushing technique the softwood is removed from the surface of the planks, leaving the grain more prominent. The solid oak planks are all 20,5mm thick and come in various widths: 129mm, Avenida (160mm) and Boulevard (185mm).

*Make way for solid planks*

**A movement arises**

Junckers has given life to new high quality products as part of the Design Collection.

Make way for solid planks, both textured and coloured in fifteen new radiant colours, divided in four luxurious collections; **Scandinavian Nature**, **Cozy Symphony**, **Dark Luxe** and **Funky Fashion**.

**Scandinavian Nature** - touched by silver and pearls

AntiqueWhite   FrostedWhite   GlacialWhite   Nordic

**Cozy Symphony** - where warmth and tranquility meets

DarkCoco   CrunchyCaramel   RawSugar   SpicyPepper   WildHazle

**Dark Luxe** - a blend of mystique and spirituel desire

DesertGold   MountainSilver   BlackVelvet

**Funky Fashion** - Nature gone wild

BlackOak Oil   PinkDiva   GreenGecco
