# SIBERIAN LARCH

THE MOST NATURALLY DURABLE TIMBER ON THE PLANET

At Mumford & Wood we use engineered Siberian larch in our core window and door specification. Because of the location, growth is very slow producing timber with exceptionally tight growth rings. It is their closeness that results in an especially dense material which is naturally durable and able to withstand testing climatic conditions.

The Siberian larch used by Mumford & Wood has a density of more than 600 kg/m<sup>3</sup> and needs no further treatment to resist fungal or insect decay. The European redwood used by our competitors has a lower density of 510 kg/m<sup>3</sup> which is classified as nondurable and must be treated with a preservative to give it longevity.

CONSERVATION™ RANGE

For period, listed and traditional-style new-build projects, our crafted Conservation™ Range delivers authentic detailing and designs that celebrate the original, whilst providing superb thermal and acoustic performance.

MAIN IMAGE  
AWARD-WINNING NEW-BUILD  
KINGSTON UPON THAMES  
*Our stunning Conservation™ sash windows feature in this exclusive 9,000 sq ft new-build house, winner of the 'Best Out of London Home' in the London Evening Standard New Homes Awards 2014. Situated in an area of outstanding natural beauty, Coombe Park is within minutes of Wimbledon Village, the Common and Richmond Park.*

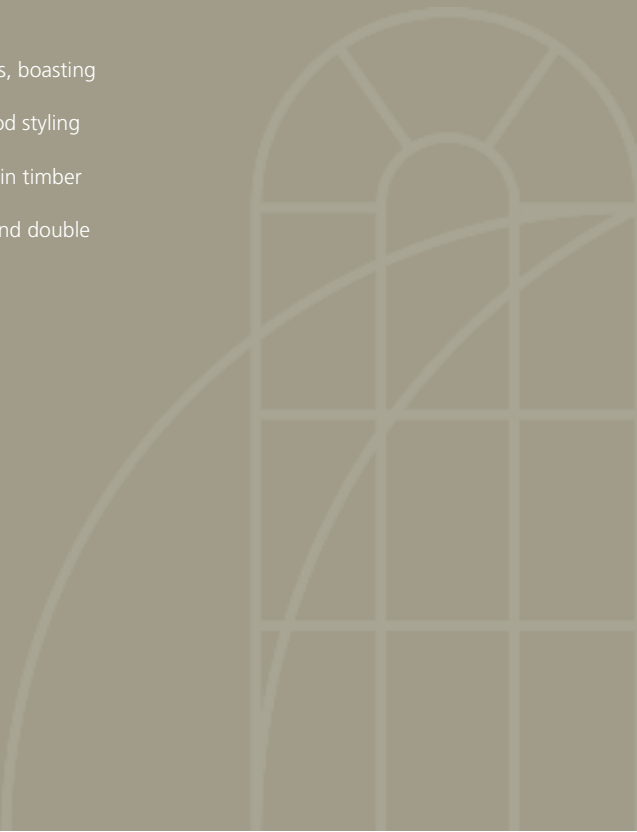

# CONSERVATION™

## BOX SASH WINDOWS

This is our highest specification range, designed to directly retro-fit in place of original box sash windows in older properties, or to create a traditional appearance in new-builds.

These windows offer the best of both worlds, boasting an enviable combination of authentic period styling and features, together with the very latest in timber window technology for improved security and double glazed for superb thermal and acoustic performance.

A favourite with architects, planning authorities and preservation societies, the Conservation™ box sash features traditional weights, heavy duty ball bearing pulley wheels and pre-stretched nylon cords that will not break or stretch.

The distinctive deep moulded internal profiles are available in a choice of ovolo, lamb's tongue and fine lamb's tongue profiles with elegant glazing bars to match.

MAIN IMAGE, INSET IMAGE

*Our beautiful timber Conservation™  
box sash windows have been specified  
in the complete internal and  
external conversion of this Regency  
period property in fashionable  
Pimlico Village, City of Westminster,  
now an eclectic, 10-bedroom  
boutique hotel.*

EGHAM, SURREY  
*A majestic neo-classical mansion house of 29,000 sq ft features our Conservation™ sash windows, French doors, entrance and external doors, as well as the very best of British creativity and design.*

# CONSERVATION™

## SPRING SASH WINDOWS

Featuring pre-tensioned spring balances in place of traditional weights and pulleys, these double glazed windows offer classic period styling combined with the latest timber window technology and skilled craftsmanship.

Double glazed to exceed required energy-efficiency standards, this high specification range brings the much loved sash window into the 21st Century.

Conservation™ spring sash windows offer the perfect solution for new-build projects and buildings requiring a flush-reveal installation. These popular double glazed windows ensure ultimate standards of security, thermal and acoustic performance which exceed the requirements of current Part L Building Regulations.

In conservation areas, and in more modern buildings of traditional architectural style, we have designed a simple box cover to completely conceal the modern spring balance which achieves an authentic period aesthetic. The quick-fit staff and parting bead can be easily removed for quick and efficient redecoration.

INSET  
OXSHOTT, SURREY  
*Superb new-build featuring many beautiful and hi-spec design enhancements together with our Conservation™ sash windows.*

MAIN IMAGE  
'A HOUSE FOR ESSEX'  
*Vibrant Conservation™ sash windows were specified in the provocative design of A House for Essex, the vision of leading contemporary artist Grayson Perry, as part of Alain de Botton's series of 'rentable' holiday homes.*

# CONSERVATION™

## TILT & SLIDE SASH WINDOWS

The Tilt & Slide window is the natural choice for mid and high rise developments, such as mansion apartment blocks with difficult external access.

This innovative design feature allows the lower sash to be released and tilted inwards for easy access, maintenance and cleaning.

These specially adapted sash windows are hung on pre-tensioned springs and have a tilt and slide bottom sash which efficiently and conveniently tilts inwards into the room. Externally the window coordinates with all products in the Conservation™ collection, has slender meeting rails, fine glazing bars and traditional mouldings.

MAIN IMAGE, INSET

MAIDA VALE, LONDON  
*Beautiful Conservation™  
Tilt & Slide sash windows have  
been specified in this extensive  
refurbishment of a six-storey  
mansion block in affluent  
Maida Vale, London.*

CATHERINE STREET, LONDON WC2  
*The elegant architecture of Covent Garden in London's West End boasts an eclectic atmosphere that attracts Londoners and many overseas visitors. Here double glazed Conservation™ casement windows, some with curved heads, others in a bay configuration with decorative fanlights above, closely replicate the originals.*

# CONSERVATION™

## CASEMENT WINDOWS

A high performance casement window range offering traditional sightlines that coordinate with the full Conservation™ suite of products have a flush-line traditional appearance of casement to frame.

Ideal for both older properties and new-build projects, every window is made-to-order to your specific design. Choose the size, number of panes, with or without glazing bars, profile style and opening method and we will design and manufacture for you with endless possibilities.

Our established double glazed Conservation™ casement range offers excellent performance ratings that exceed the requirements of current Part L Building Regulations. Our A+ rated specification, with its carbon neutral status in accordance with the BRE Green Guide to Specification, will help architects and designers achieve essential materials credits for their creations.

These elegant windows are also Secured by Design accredited for your total peace of mind.

HAMPSHIRE  
REFURBISHMENT

*The remodelling of a 1950s cottage-style property has added substantially to the original footprint. Draughty steel windows have been replaced with our Conservation™ casements which are finished in RAL 7047 both internally and externally. A variety of external doors and Balcony doors to the front and rear elevation has made access to the property's beautiful wooded surroundings both smart and easy.*

DANBURY, ESSEX  
*This picture-perfect, solid panelled, Conservation™ entrance door with decorative timber porch and Conservation™ casement windows makes a striking visual to this new-build property. Factory finished in dual colour option using Agate Grey externally and RAL 9003 white internally, with high quality polished chrome hardware.*

# CONSERVATION™

## ENTRANCE DOORS

Constructed using traditional methods while exceeding today's standards of thermal and acoustic performance, our entrance doors are made-to-order to suit your precise specification. This includes raised and fielded panels, double glazed units, decorative fanlight grilles and ironmongery. Every entrance door is supplied with three coats of spray-applied, highly durable, micro-porous paint or stain.

Naturally Secured by Design accredited.

Compliant with current Part L Building Regulations and using traditional mortice and tenon joints for maximum strength and stability, every door is a substantial 57mm thick, hung with a 68mm frame, and meets Secured by Design PAS 24 accreditation.

INSET IMAGES

CHELSEA, LONDON  
*New Conservation™ balcony doors  
 have been specified for this complex  
 project in one of London's most  
 desirable and prestigious addresses.*

# CONSERVATION™

## BALCONY DOORS

Tradition meets innovation with the Conservation™ Balcony doors collection. These elegant doors are usually found in a Juliet balcony arrangement and are a modified version of a standard French doorset.

The dimensions of the vertical stiles are particularly narrow, by comparison, to maximise the glazed area and to allow more natural light ingress. The design and construction method we use achieves an authentic replica of a single glazed original balcony door in which the integrity of the elevation is completely maintained.

Our beautiful Conservation™ Balcony doors are frequently specified for Georgian and Victorian terraces and villas and in areas of special and historic interest.

ESSEX NEW-BUILD  
*Stunning four-leaf, non-bar,  
 Conservation™ Bi-folding doors truly  
 link the house and garden in this  
 beautiful new-build property located  
 in a much sought after village in  
 rural Essex.*

# CONSERVATION™

## BI-FOLDING DOORS

The Conservation™ range of outward opening  
 Bi-folding doors allow you to maximise space, light and  
 access to the big outdoors.

Made-to-order these inspirational Bi-folding doors can  
 accommodate a maximum of seven leaves to create a  
 dramatic opening of up to 5.9m wide and heights  
 of up to 3m.

Our core specification features an ovolo sash profile, with or without glazing bars, and the option of lamb's tongue and fine lamb's tongue profiles to coordinate with your windows and doors. They are also available with a square profile to achieve a more contemporary style.

Factory finished and double glazed, 24mm Argon filled panels with low-emissivity glass coating as standard specification can be exchanged for laminated or obscure glass, while stylish ironmongery is available in a choice of elegant designs and finishes.

MAIN IMAGE  
OXSHOTT, SURREY

*This inspirational new-build property has been designed in perfect balance with traditional Georgian architecture externally and features Conservation™ sash, casement and feature windows along with several large sets of Bi-folding doors.*

INSET  
WEYBRIDGE, SURREY

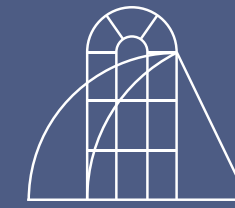

*A luxurious new-build home on a private residential road, this Victorian-style town house features Conservation™ Bi-folding doors that overlook the inspirational sunken garden and terraces.*

## LISTED TERRACE, BRISTOL

*Slim double glazed panes, with true bars and putty face finish, feature in these Classic™ Range sash windows which have been specified in the aesthetic and thermal upgrade of a substantial row of listed terraced properties that overlook one of Bristol's grandest and most elegant squares.*

# CLASSIC™

## RANGE

Our NEW Classic™ Range of sash windows and doors are designed specifically to satisfy the requirements of more stringent planning areas.

Combining traditional appearance with the features of modern manufacturing techniques using slim, elegant double glazed panes, the Classic™ Range is the perfect choice for period property upgrade and replacement.

# CLASSIC™ RANGE

The Mumford & Wood Classic™ Range of windows and doors offers an alternative slim panel glazing system that effectively reduces sight lines. This visual is more in keeping with period aesthetics making the Classic™ ideal for window replacement and upgrade in heritage projects and areas where planning restrictions may apply.

These made-to-order slim double glazed products are available with a choice of profiles and feature individual 12-14mm slim profile units with true bars and a traditional external putty faced finish.

In addition to standard annealed float glass, the opportunity to achieve the natural appearance of hand-blown glass with reduced reflection is possible with the option to choose either Victorian sheet or Crown glass.

#### MAIN IMAGE LINCOLNSHIRE

*Destroyed by fire and serving as a hospital in both World Wars this 16th Century property has been remodelled many times.*

*The current owners have introduced 21st Century standards of thermal and acoustic performance with Classic™ box sash windows throughout.*

SAATCHI GALLERY  
CHELSEA  
*Single glazed, Conservation™ historic box sash windows were made-to-order in the dramatic conversion of the main building of the Duke of York's HQ, Chelsea, now the home of the Saatchi Gallery.*

# HERITAGE™

## RANGE

Our fully coordinated Heritage™ range of authentic period windows and doors are designed to replicate and replace original single glazed windows, like-for-like to the very finest detail, and are particularly suited for listed buildings.

Featuring true bars and a traditional external putty faced finish, the design aesthetics of products in the Heritage™ range will satisfy the most stringent planning requirements.

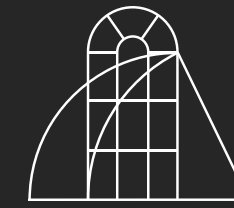

Manufactured as single glazed frames with hand-faced external putty, just as the originals would have been, Heritage™ windows and doors feature 4mm float glass or a choice of heritage-style glass to give a more authentic, uneven finish. Each window is bespoke in size and pattern, with a profile preference of Georgian, Gothic, Victorian or Queen Anne ovolo, to precisely replicate the originals.

The natural choice for listed properties\* where there is no requirement to meet current Building Regulations.  
\*Subject to planning approval.

MAIN IMAGE  
GRADE II LISTED HALL, NOTTINGHAMSHIRE  
*Elegant Heritage™ box sash windows and doors have been specified in the sensitive historic renovation of a country Hall built in the 1600's. Single glazed floor-to-ceiling height box sash windows have been used throughout the property together with glazed entrance door and fanlight grille.*

INSET IMAGE  
KING'S LANGLEY, HERTFORDSHIRE  
*This lovingly restored large Georgian estate, built for the great and the famous, features single glazed Heritage™ box sash windows, grand entrance doors, feature windows and curved-on-plan French doors. Heritage™ casement windows adorn the extended garden room.*

# FACTORY TOUR

## BUILT TO PERFECTION

Mumford & Wood's state-of-the-art manufacturing facility in Tiptree, Essex, extends to over 3,000m<sup>2</sup> and has recently undergone a £1.5m investment in new plant and equipment.

For those who are interested in seeing how the Mumford & Wood facility works, the Tiptree Factory Tour provides a fascinating insight. This one-hour long tour will take visitors through the processes of timber selection and preparation, moulding of profiles, frame and sash assembly to painting, glazing, hand finishing and wrapping.

Our Factory Tour is a RIBA-assessed CPD.

To find out more and arrange a visit for yourself and your colleagues, please call us on 01621 818155

## COMPLETE CARE SERVICE

Our fully operational check on each Mumford & Wood window and door can be carried out by our engineers who are specially trained to work in your home. Handles, catches, spring balances, hinges, locking mechanisms and weather-stripping will be checked for wear and replaced if found to be faulty in any way\*. Any adjustments that are needed will be carried out to ensure smooth and seamless operation.

To find out more about our Complete Care Service please speak to your Mumford & Wood local area Sales Manager - all costs are dependent on location, project size and access.

Email: [customer care@mumfordwood.com](mailto:customer care@mumfordwood.com)

Call us on 01621 818155

\*Our service does not cover malicious or deliberate damage although we will quote separately for the work and carry out the repairs.

# ORIGINAL PAINT

SHOULD YOU NEED TO MAINTAIN YOUR WINDOWS & DOORS

Our windows and doors are coated with a water-based, micro-porous and spray-applied protective paint or stain coating. With minimal maintenance they will give decades of service, backed initially by a comprehensive 10 year guarantee.

Should you need to maintain your windows and doors we have developed a NEW Paint Range ideally suited to the high quality timber used in all our products. It is easily applied using a good quality synthetic brush designed for use with acrylic paints.

Full maintenance details and instructions can be found in our Site Instruction, Aftercare Manual & Warranty brochure.

Available in 1 litre tins to match the exact colour of your existing Mumford & Wood timber windows and doors, ordering could not be simpler.

Please contact our dedicated Customer Service team who will confirm the precise colour used on your original order; we will take your order and mail the paint or stain directly to you.

Email: [customerservice@mumfordwood.com](mailto:customerservice@mumfordwood.com)
