

CARDEA

The Cardea range of blackiron products has been sheradized to ensure longevity against the elements. In essence these fittings have been rust proofed prior to painting ensuring many years of maintenance free use. The inherent smoothness also offers an alternative black finish to the crinkly appearance of Antique Iron.

CARDEA

Cardea unlacquered brassware has a quirky old-fashioned feel about it. Each piece is a sand cast and finished by hand just as it would have been centuries ago. Left to tarnish these items will soon look and feel as if they were from a bygone era.
Cardea is the Roman goddess of health, thresholds and door hinges!!

CARDEA

This unique range of dark bronze represents the best value bronze hardware on the market today. Hot dipped in boiling oil and finished with a dark wax coating these pieces can be left dark brown in appearance or buffed to reveal a soft bronze lustre. Each piece possesses a slight crudeness that would befit both a country house and cottage alike.
