## BESPOKE HAND TURNED WOODEN DOOR KNOBS

Made with great care and attention the wooden doorknobs opposite (page 30) are individually hand turned. They are produced from beech, and can be either stained or left unfinished. These are held as a stocked product.

## FRANK ALLART ~ FINISHES ON BRASS

Polished Nickel  
**NP**

Polished Chrome  
**CP**

Satin Nickel  
**SNP**

Satin Chrome  
**SCP**

Unlacquered Brass  
(tarnished) **UNL**

Antique Brass  
**AB**

The knobs above highlight the choice of finishes available to order. Polished nickel is a little softer than the brighter polished chrome, both of course are a mirrored finish and will remain so if wiped over regularly. Satin nickel is very reminiscent of satin stainless steel and like the satin chrome is plated over a brushed brass item. The unlacquered brass item will come in a bright-mirrored finish but in time will oxidize to the finish shown above.

## BRASSART ~ DOOR KNOBS

Brassart Ltd is the craftsman of our industry and they pride themselves on their ability to recreate furniture from either existing patterns or working drawings. Their traditional skills and high quality finishes, including the use of gold plate and French gilt is nicely summed up by their name.

Door Knobs are sold as a pair. See pages 79-86 for compatible locks

Below are examples of Samuel Heath's collection of luxury architectural hardware. Combining precision engineering with sublime finishing these fittings really are excellence personified. Something you would expect from a company that's been manufacturing door furniture for almost 200 years. They have recently returned to their roots with the issue of two new heritage finishes; Antique Brass and Antique Bronze, as illustrated in the reeded and oval knob respectively. Please contact us for more detail.
