

## 20 SPACE CHELSEA TWO TIER CYCLE SHELTER

SPACE SAVING TWO TIER CYCLE STORAGE

Unlock the power of high-volume bike storage with our 20 Space Chelsea Two Tier Cycle Shelter, designed to house our popular Two Tier Racks. This innovative solution offers double the single-tiered storage capacity without compromising security, ensuring bicycles remain safe and protected. Whether installed on campus, residential blocks, public spaces, or commercial developments, this shelter seamlessly balances functionality and design, delivering dependable cycle storage with a professional finish. The Chelsea Shelter is a premium bike storage solution that performs under pressure. Its compact footprint and expandable layout make it ideal for sites with limited space and high cyclist usage. It can be bespoke as we offer custom configurations, from extending bay sizing to integrated lockers, lighting, and branding. We can help achieve the perfect specification for any project.

- › **Standard Dimension:** 4100mm (W) x 2100mm (D) x 3100mm (H)
- › **Two Tier Rack System:** Accommodates twice the number of bikes in the same footprint as traditional bike racks.
- › **Secure Bike Storage:** Allows users to lock the bike frame and wheels, top tier features a smooth-slide mechanism for safe and easy user access.
- › **Anti-Climb Roof:** Deters vandalism and increases the longevity of the shelter.
- › **Modular Design:** Expandable by 20 spaces simultaneously to meet growing demand.
- › **Fire Retardant Version:** Ideal for meeting building regulations in C1 & C2-rated spaces.
- › **Hot-Dipped Galvanised Frame:** Corrosion-resistant to BS EN ISO 1461:2022.
- › **Customisable Options:** Grounding fixings, colour finishes, cladding styles and locking systems.

## PROJECT: Charles Tyrwhitt

The demand for sustainable transportation solutions is higher than ever. As cities in the United Kingdom look to reduce congestion and promote eco-friendly commuting options, innovative cycling infrastructure plays an essential role. This case study explores the transformational impact of the Chelsea Two-Tier Cycle Shelter, a solution designed to enhance urban cycling experiences. Charles Tyrwhitt, a prominent clothing company, recognised the pressing need to enhance cycling infrastructure in Milton Keynes. Committed to promoting sustainable movement, they sought a cutting-edge solution to accommodate active commuters while aligning with high-quality and sustainability standards.

The Chelsea Two-Tier Cycle Shelter emerged as the ideal solution to address Charles Tyrwhitt's requirements. Crafted with precision engineering and thorough attention to detail, this shelter offers many great features such as space optimisation, customisation options, and professional installation. The shelter maximises capacity with a space-saving two-tier design without compromising accessibility or user convenience. The gas-assisted racks and secure locking hoops provide cyclists with peace of mind, safeguarding their bicycles against theft or damage.
