TOMORROW'S INSULATION TODAY

ACTIS CASE STUDY 2011

Parkside, Chorley

October 2011

Parkside, Chorley, Lancashire

1 storey rear extension to residential house.

Under rafter application using 35m² of TRISO-SUPER 10.

TRISO-SUPER 10 was supplied by Jewson in Chorley.

Installed by Gary & Sam of High Class Windows, Chorley.

TRISO-SUPER 10 was approved by John Bethwaite of Chorley Local Authority Building Control.

Multifoil insulation was chosen as there were many angles in the vaulted roof, which would be too difficult and time consuming to use PUR board.

TRISO-SUPER 10 was chosen as it saved headroom, maintaining the vaulted ceiling, and was easy to install.

The builders would recommend and use TRISO-SUPER 10 again as it is clean and non itchy, there is no dust and they saved time during installation.
