BO 5121004R	6 mm x 4 mm x 5 mtrs

Bohle Adhesive Bonding Tapes Bohle Duplocoll®

- For different applications, such as all-glass partition walls, furniture, shower cubicles and much more
- For different materials, such as wood, aluminium, plastic, ceramic or glass
- High transparency due to a light refractive index almost identical to glass
- Antimicrobial effect - inhibits growth of microorganisms
- By sealing the edges of the adhesive tape, Duplocoll® becomes dry after adhesion and resistant to external influences
- Elongation of up to 500% and highly split-resistant
- Resistant to chemicals and softeners
- Very good initial tack, lasting ultimate bonding strength
- Also suitable for rough surfaces: The viscoelastic adhesive film distributes evenly across rough surfaces.
- Resistant to ageing and UV radiation, economic, high quality and does not affect the external appearance of the construction

Thickness 3 mm · Colour transparent · Roll length 12 m · Max. allowable continuous temperature: -40°C - +100°C

Please note: Please use the corresponding applicator to ensure simple and precise application on the glass edge.

Shower Door Sealing Strips

The following page shows some suggested sealing strip positions. There are different seals configurations that can be used and this is intended as a guide only.

Type 1

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 6

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 2

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 7

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 3

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 8

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 4

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 9

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 5

For shower hinges with a 7 - 8 mm glass-wall gap.

Type 10

For shower hinges with a 7 - 8 mm glass-wall gap.

Premium square Reinforcement Bars

Less is more. Premium square achieves a perfect ratio of proportion, detail and material. Visible but unobtrusive. Premium square reinforcement bars captivate due to their clean straight lines. Minimalistic accentuation emphasizes the features of modern bathroom landscapes. The brass support bars can easily be trimmed to size.

BriteGuard® Smart surface protection

BriteGuard® is a registered brand of Bohle AG. For over 90 years we have been developing, producing and selling products for glass processing and finishing. No matter what you plan to do with glass, our full product range offers you the right products – including surface protection. With BriteGuard® Bohle has developed a surface protection system that is setting new standards. At the heart of the system are the two coating products BriteGuard® Surface SEALER for smooth surfaces and BriteGuard® Surface SEALER X for rough surfaces. The German Technical Inspection Agency, TÜV, has tested BriteGuard® Surface SEALER and confirmed that smooth glass surfaces become easy to clean and dirt-repellent when protected with BriteGuard® – typically for at least 10 years.

Bohle BriteGuard® Surface ACTIVATOR

For pre-cleaning smooth glass/glazed ceramic surfaces before applying Surface SEALER.

Art. No.	Description
BO 5831000	1 l

Bohle BriteGuard® Surface SEALER

Surface SEALER is suitable for all smooth glass or glazed ceramic surfaces. It makes no difference whether the coated material will be used indoors or outdoors or whether you want to protect showers, partitions, conservatories, facades or glass furniture.

Art. No.	Description
BO 5810500	500 ml
BO 5815000	5 l

Bohle BriteGuard® Surface FINISHER

For easy removal of excess material after applying Surface SEALER.

Art. No.	Description
BO 5841000	1 l

Bohle BriteGuard® Surface SEALER X

Surface SEALER X was specially developed for rough surfaces. This can be glass that is satin finished or sandblasted.

Art. No.	Description
BO 5820500	500 ml
BO 5825000	5 l

BriteGuard® Express

BO 5850050

Protect your showers quickly and easily before mounting with BriteGuard® Express. The coated glass surface is immediately protected and can be easily cleaned. In this way your customer will enjoy a high quality shower for a long time. Simply leave the remaining BriteGuard® Express with your customer after the first coating so that they can refresh the protection at any time. Once it is used up they can buy new material directly from you.

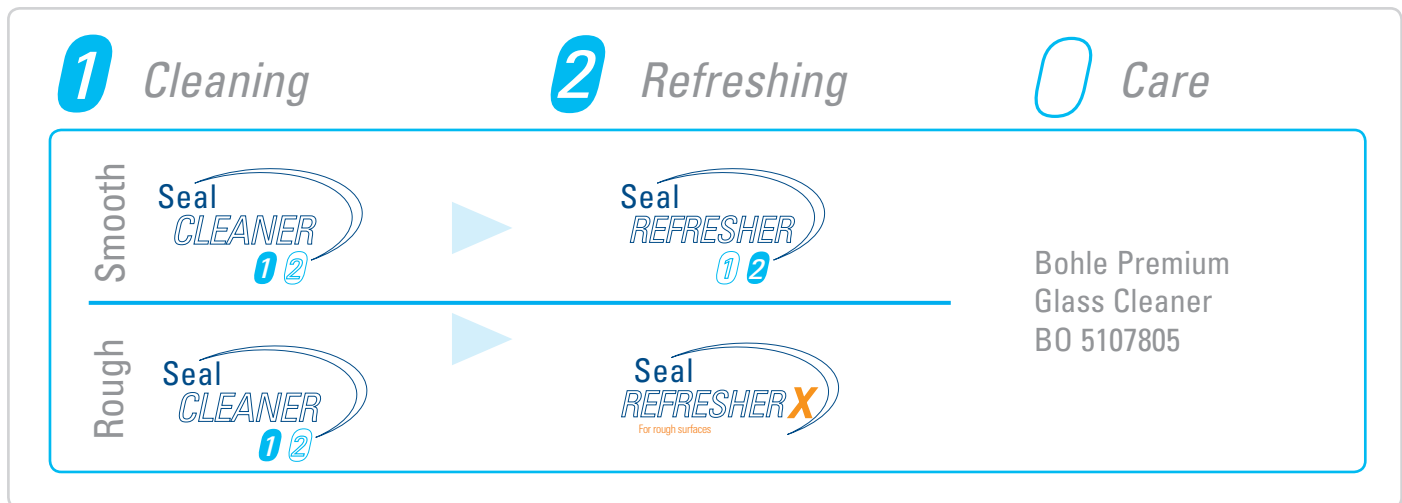

Benefits:

- Quick protection for all smooth glass surfaces
- Simple application - clean the glass pane, apply BriteGuard® Express uniformly with a spray bottle and polish.
- The surface becomes hydrophobic immediately (water drips off)
- The glass remains protected & easy to clean for several months
- Can be renewed at any time
- For professional requirements and for use at home
- 500 ml bottle with spray head

Products for Care and Maintenance

We recommend Bohle Premium Glass Cleaner for routine cleaning. If the coating has been damaged due to improper use at the end customer's site, it can be refreshed quickly and easily with our BriteGuard® REFRESHER Set for smooth glass and our BriteGuard® REFRESHER X Set for sandblasted glass.

Bohle Seal REFRESHER Set

Seal CLEANER optimally prepares surfaces for treatment with Seal REFRESHER · Seal REFRESHER is used to refresh the functional layer of smooth surfaces when its effectiveness diminishes (for example when it has been handled improperly).

Included in delivery:
1x BriteGuard® Seal CLEANER, 250 ml
1x BriteGuard® Seal REFRESHER, 250 ml
1x Microfibre Cloth

Art. No.	
BO 5860251	Seal REFRESHER X Set

Limescale Remover

BriteGuard® Limescale Remover for professional use or standard use at home. Spray BriteGuard® Limescale Remover onto the surface and allow a short while to take effect before removing with a clean towel.

Benefits:

- Can be reapplied at any time
- 500 ml bottle with spray head
- Spray BriteGuard® Limescale Remover onto the surface and allow a short while to take effect before removing with a clean towel.
- Suitable for pre-cleaning before using BriteGuard® Express
