

### **Environmental Policy**

The board of Blue Phoenix will apply the following environmental considerations to its business activities in line with our BS EN ISO 14001 Management System and in-house procedures/protocols regarding the processing, delivery and placement of aggregate products and supply of Non-Ferrous metal concentrates.

### **Staff Awareness**

Blue Phoenix UK will continue to raise environmental awareness throughout the business through the training and development of its employee's and will communicate openly and consult with the Regulators, customers, suppliers and other stakeholders on relevant environmental matters.

### **Environmental Legislation**

Environmental Legislation is considered as a minimum standard and the business will operate in compliance with all applicable legislation. The Company is committed to the protection of the environment, including prevention of pollution and compliance to our Environmental Permits

### **Pollution Prevention and Control**

#### ***Processing***

Operations will be conducted in such a way as to minimise risk of pollution and adequate methods of controlling spillages and disposing of contaminants in line with legislation have been defined. Emissions from the processing of IBAA are also controlled where applicable to ensure that there are no significant effects on our neighbours and the natural environment.

#### ***Delivery and Application***

All aggregates are supplied in line with RPS 247 and associated in-house environmental assessment methodology.

### **Objectives**

key objectives for the business are documented within the management system and are aimed at reducing our impact on the Environment as far as is reasonably practicable.

### **Sustainability**

The company strategy is focused on contributing to a circular and net-zero economy while ensuring a safe and healthy working environment for all of our employees.

### **Availability of Information**

Information on the possible environmental impact of the company's operations and activities are available to customers, suppliers, local authorities and other stakeholders on request.

Blue Phoenix is committed to continually improving its Environmental Performance through the setting of appropriate business objectives which will be reviewed on an annual basis in line with BS EN ISO 14001 and the company's own business planning requirements.
