# GAS ASSISTED TWO TIER CYCLE RACK

## Hot Dipped Galvanised Handles

Hot Dipped Galvanised handles to BS EN ISO 1461:2022 for optimal durability. If you're looking to create a more personalised bike storage zone we can provide Framework Powder Coating to any RAL colour.

## EasyGrip Handles

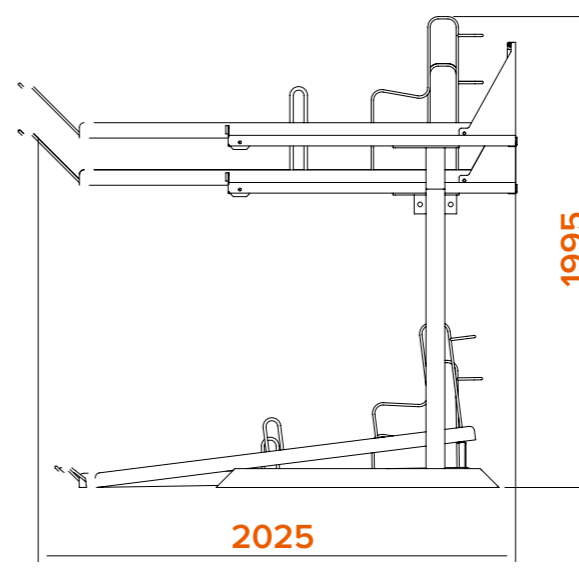

Access to the second tier of the rack is aided by the EasyGrip handles, lightweight steel and gas-assisted mechanisms that take the weight of the bike during the mounting and unmounting process.

## TOP

## SIDE

## FRONT

The Gas Assisted Two Tier Bike Rack provides convenient high-density bicycle parking alongside the ultimate user-friendly experience. Each upper-level rack has a tamper-proof gas strut integrated at the back; this assistance eliminates all strain from the bike loading process and has been rated up to 30 kg. The bike's wheels and frame can be secured to the locking point, ensuring a high-security cycle rack. Gas Strut tested to over 30,000 users. Supports any bike with a maximum tyre width of 64mm. This rack can help you achieve BREEAM Compliant status.

## FEATURES

- Free Delivery
- UK Manufactured
- Tested to over 30,000 users
- Gas-assisted lifted mechanism
- Minimum height required is 2500mm
- Single or back-to-back versions are available
- Hot Dipped Galvanised to BS EN ISO 1461:2011
