Range Information

The Flutto® range draws on traditional woodcraft, providing a way to elevate your interiors with on-trend looks in an enduring design. Suitable for any renovation project, Flutto® is available in a high-end real wood veneer, with and without a decorative oil, as well as a quality solid-colour finish. Its flexibility makes it ideal for a diverse range of projects, while also being easy to install, ensuring that incorporating it into your space is hassle-free.

Panel styles available:

Flutto® Wood

Flutto® Colour

Acoustic properties	✗ No acoustic properties	✗ No acoustic properties
Fire rating	✗ No fire rating	✗ No fire rating
Moisture resistance	✓ Water-resistant fabric backing	✓ Water-resistant fabric backing
Finish options	✓ Natural Real Wood Veneer ✓ Oiled Real Wood Veneer	✓ Solid Melamine
Surface material	 Real wood veneer	 Melamine
Look & feel	 Wood grain texture	 Solid smooth texture
Care & maintenance	✓ Wipe panels with microfibre cloth	✓ Wipe panels with microfibre cloth

Installation instructions

How to cut the Flutto® Flexible Tambour Panels

To cut the Flutto® Flexible Tambour Panels, a sharp, fine-tooth saw is recommended to cut the panel width-ways and length-ways.

Tools needed

Measuring tape

Sharp, fine-tooth saw

Masking tape

Level

Glue or grab adhesive

Sandpaper

How to install the Flutto® Flexible Tambour Panels

The Flutto® range has been designed to be installed with ease. Follow these quick and easy steps to fit your new panels, and redefine your space.

1. To make sure your panels have the best surface to adhere to, ensure your surface is smooth, clean and dust-free before installing your panels.
2. Measure your space, and cut the panels as required to fit it. We recommend using a sharp, fine-tooth saw for a clean cut. To reduce the likelihood of splintering and loose pieces of veneer, apply masking tape before cutting the panel. If there are any rough edges, use sandpaper to clean these edges up.
3. Use a construction glue or grab adhesive on the back of the panels, and place the panel on your surface. Press the panel in place to ensure it adheres to the surface.
