

EQUILIBRIUM CYCLE STAND

Balanced Design, Secure Performance

The Equilibrium Cycle Stand combines a sleek, contemporary profile with the strength and durability expected from British-made steelwork. Its modern curved form provides a stylish alternative to traditional stands while delivering the same reliable security for both wheels and frame. Hot-dip galvanised to BS EN ISO 1461:2022 as standard, the Equilibrium is built to withstand daily use and the British climate. Architects and specifiers can choose from stainless steel or polyester powder-coated finishes in a wide range of RAL colours to match project aesthetics. Available with both overground and underground fixings, the stand is ideal for schools, offices, residential developments, and public realm projects. With quantity discounts available, it offers a cost-effective yet design-led cycle storage solution.

- › **Durable Construction:** Manufactured from UK mild steel and hot-dip galvanised to BS EN ISO 1461:2022
- › **Finish Options:** Galvanised, stainless steel, or polyester powder-coated in any RAL colour
- › **Contemporary Aesthetic:** Modern curved design ideal for architectural schemes
- › **Flexible Fixings:** Available with both overground (baseplate) or underground (root-fixed) options
- › **Capacity:** Secures up to 2 bicycles per stand (frame and wheel locking)
- › **Sustainability:** Made in Britain and BREEAM compliant
- › **Warranty:** Backed by a 10-year manufacturer's warranty against defects
- › **Low Maintenance:** Robust design ensures long-term reliability in all environments
