

# EZ SPOUT™ 90 HC

## AT07-101

The EZ Spout™ features a modern, minimalistic and highly practical design for the most demanding of healthcare environments.

Quickly and easily removes for servicing to ensure minimal disruption, thanks to the twist and lock wall mounted spigot mechanism.

Spout has an un-restricted outlet (without strainer or aerator)

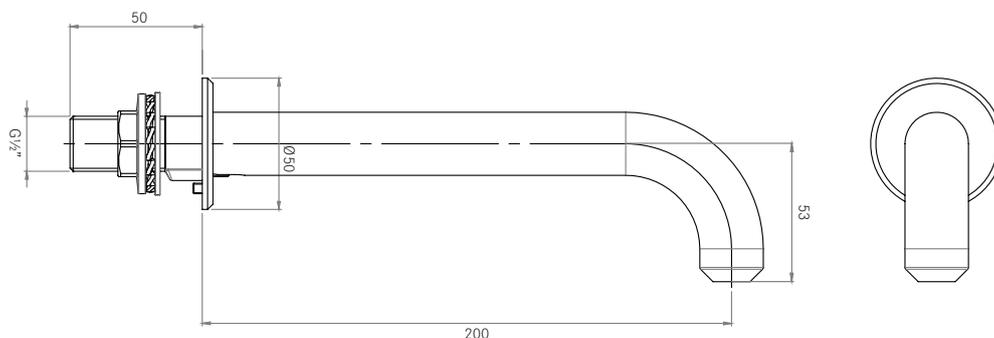

Manufactured from 316 Stainless Steel, smooth flow channels and easy to clean shape, maintains high levels of hygiene to reduce cross contamination.

### PRODUCT NUMBER

AT07-101

### TECHNICAL DATA

Type of tap	Removable spout
Material	316 Stainless Steel
Surface finish	Brushed
Gross weight (incl. spigot)	0.55kg (spigot 0.15kg / spout 0.4kg)
Operation type	Separate sensor
Type of mounting	Wall mounted spigot
Type of mixing	Additional TMV required
Spout projection	200mm
Water connection	½" BSP or 15mm compression
Other features	Anti-vandal locking grub screw
