

## ABERDEEN CYCLE LOCKER

A Smart Locker For Modern Spaces

The Aberdeen Cycle Locker is our most secure individual storage solution, engineered as a fully enclosed, four-sided steel unit that protects bicycles from theft, vandalism and the elements. Designed for environments where security cannot be compromised, it provides complete weather shielding and a private, lockable space for every user. Constructed with reinforced profiled framing and high-security locking mechanisms, the Aberdeen Cycle Locker delivers uncompromising protection in high-risk or high-value settings. Its robust steel structure is built for longevity, minimising maintenance while maximising lifecycle value – aligning with the wider positioning of premium, British-made, specification-led solutions. The result is a locker that not only performs at the highest level, but also contributes positively to design intent, compliance objectives and long-term asset value.

- › **Capacity Options:** Available in 4 bike, 6 bike or 3 cargo bike configurations to suit project requirements and user demand.
- › **Rack Spacing:** 375mm, 400mm or 500mm centres available to optimise comfort, capacity and footprint.
- › **Gas Spring Assisted Lid:** Dual piston system ensures smooth, controlled opening for safe and effortless daily use.
- › **Anti-Theft Locking Mechanism:** High-security locking system designed to deter tampering and unauthorised access.
- › **Adjustable Leg System:** Integrated base plates allow secure fixing to a range of solid surfaces..
- › **Powder Coated Finish:** Durable, customer-specified RAL powder coating for long-term protection and seamless project integration.
- › **Bespoke Branding Options:** Custom graphics and branding available to align with corporate or development identity.

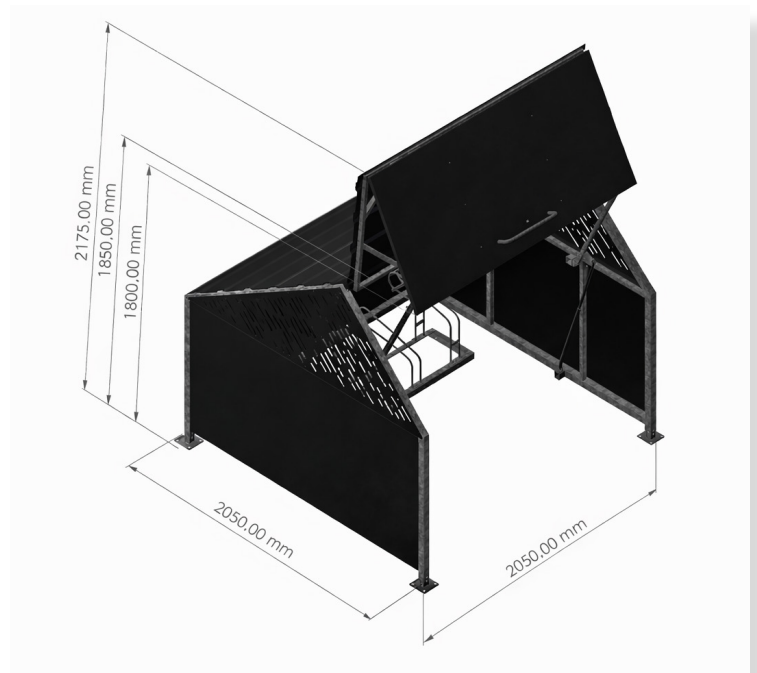

## ABERDEEN CYCLE LOCKER

Our Aberdeen Cycle Locker is fully aligned with modern planning and sustainability objectives and manufactured in Britain, supporting long-term development goals while delivering uncompromising individual bike security. Designed as a fully enclosed unit providing complete protection from theft, vandalism and the elements.
