ALIDECK

Decking Boards

AliDeck is the most complete non-combustible aluminium decking system available on the market.

The AliDeck System is a comprehensive range of aluminium decking boards, designed for use on steel or concrete inset balconies but also ideal for use in any decking application, such as terraces or on walkways.

AliDeck manufacture and supply a wide range of accessory products for our range of decking solutions, to help our customers complete their installation to the highest possible specification. These can be found on our website or in our full brochure, which you can download for free.

- Individually calculated for UK rainfall compliance
- Fire Resistant to A2-s1, d0
- Aluminium 6063 T6 grade
- 30 Year Warranty
- Life Expectancy 60 years
- Available in a range of standard AliDeck colours

ALICLAD

Aluminium Balcony Soffit Drainage

A2-s1, d0
FIRE
RATED

The AliClad range offers innovative balcony soffit & cladding solutions from the creators of AliDeck, the UK's leading provider of non-combustible aluminium decking and balcony components.

AliClad systems deliver cost-effective, ready-made soffit drainage and cladding solutions for steel bolt-on or slide-on balconies projecting from building facades. They are designed to provide clean, modern aesthetics and practical functions, such as managing wastewater or creating an impermeable layer to prevent the spread of fire.

Fire-rated to A2-s1, d0, AliClad simplifies soffit specification and offers versatility to architects, designers, and specifiers. It is ideal for both new builds and remediation projects.

4 SOFFIT SYSTEMS

240mm Flow Board: Shadow Gaps will appear due to interlocking design, providing aesthetic value without impacting drainage results

A-FENCE

Aluminium Balcony Dividers, Gates, & Fencing Solutions

Manufactured entirely out of aluminium, A-Fence will revolutionise the fencing market. Requiring very few components to achieve an effective and robust installation, the fire-safe A-Rated aluminium design will be catching the eyes of architects, developers and, of course, homeowners across the country.

A-Fence is a stylish yet highly practical approach to fencing for residential and commercial premises. Made from durable T6 6063 Grade aluminium, A-Fence is a cost-effective solution for futureproofing your balcony and perimeter fencing projects.

A-Fence offers hassle-free installation, requiring very few components. This makes it an ideal choice for your balcony division and privacy screening projects, while also making a highly desirable fencing and gateway option.
