Supreme loft ladder

...lightweight, strength and durability

The Supreme heavy duty aluminium loft ladder is manufactured from quality die-cast aluminium alloy components for strength and light-weight operation. The wooden hatch box and insulated trapdoor provide excellent energy efficiency.

- Heavy duty ladder, rated to 200kg per tread.
- Ease of use, requiring operating forces of less than 3kg.
- Fully insulated hatch with an airtight seal.
- Large treads with anti-slip profile for comfort and safety.
- Suitable for very high ceilings.
- Available in standard sizes or made-to-order with a wide range of options and accessories.

PREMIER
LOFT LADDERS

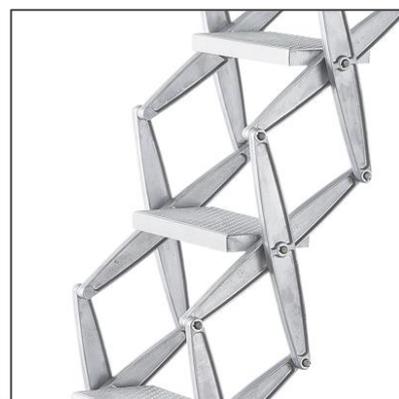

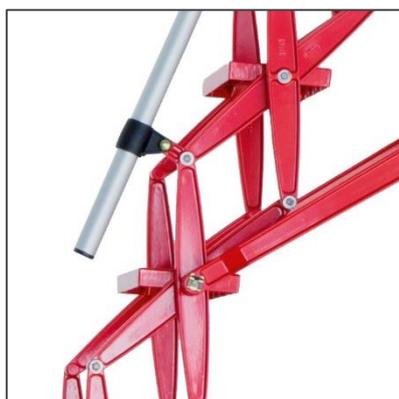

Supreme DD loft ladder

...upper hatch for superb energy efficiency

The Supreme DD loft ladder offers the same benefits as the Supreme, with enhanced thermal insulation due to a secondary upper cover. Also, the upper cover can be closed immediately after entering the loft, therefore minimising the loss of warm air.

- Heavy duty ladder, rated to 200kg per tread.
- Ease of use, requiring operating forces of less than 3kg.
- Fully insulated hatch with an airtight seal.
- Large treads with anti-slip profile for comfort and safety.
- Available in standard sizes or made-to-order with a wide range of options and accessories.
