

The balustrade
system specialists™

The balustrade partner of choice for large scale construction projects

Over the past 20 years, BA Systems has redefined the design, manufacture & installation of glass balustrade systems. By streamlining our products and project processes, we have been able to significantly improve our service. We consistently offer short lead-times to meet changes in programme, along with rapid, hassle-free installation.

Getting the design right as early as possible in a project ensures success for all parties involved.

Step one

INITIAL DESIGN REVIEW

At the initial pre-order stage, a detailed design review is completed to ensure all parties understand and agree on the overall concept – this ensures our proposals meet all requirements.

Step two

DESIGN DEVELOPMENT

We collaborate with all parties involved in a project, to develop the design and successfully meet all requirements. Our CAD facilities enable us to offer 3D visuals to ensure clarity - this process facilitates the approval process and saves valuable project time.

Step three

SURVEY & MANUFACTURE DRAWING

When the site is fully ready, we survey all relevant areas and provide detailed manufacture & installation set out drawings. These are based on the site's dimensions and all previously agreed elements. A final copy of these are submitted to our clients for their records.

“We’re ready,
when you are ready for us!”

Construction programmes are constantly changing. To ensure we fully meet our clients’ needs, we have spent the last 12 months further streamlining all of our processes - from initial site survey and design & drawing, through to our manufacturing and site installation procedures.

This means we have improved our service level and at the same time, more than halved our average lead-time from 12 weeks to less than 6 weeks.

What difference does this make to you?

1. We are more **flexible** - we can accommodate changes in programme, “We’re ready, when you are ready for us”
2. We are **reliable** - we consistently meet our client’s final agreed installation dates.
3. We carry out **rapid** installation - the installation of our products is completed in remarkably short time on-site.
4. We aim to achieve **No hassle** - With BA’s management pro-actively working closely with our clients project management team, we do all we can to assist them with smooth & snag free completions.
