

BRITA®

Fill Pro

I was looking for ways to help us meet our CSR goals and shrink our carbon footprint. In BRITA VIVREAU, I found the right self-service water dispenser for us. It has helped cut down single-use plastic waste in our office. Plus, we can count on great-tasting water, whenever we want. Brand-name BRITA filtration technology gives us peace of mind.

Fill T-Tap / Fill Pro

Speed, power and precision.

TwinFilling • efficiently fills two bottles / glasses simultaneously

SmoothFinishing • portion control to fill bottles / glasses without overflow

Three installation options

- Floorstanding
- Countertop
- Tap unit with three drip tray types

• **ThermalGate™** powerful thermal-disinfection feature protects against retrograde contamination from external sources. Supplied as standard

• **BRITA CLARITY Protect** filter preserves minerals in water while removing unwanted substances.

• **BottleGuard** to easily position bottles / glasses on the drip tray for precise filling

Benefits

- BRITA's most powerful water dispensers with the highest cooling capacity
- Made-by-BRITA quality, all filters are manufactured in Germany and dispensers are assembled in Italy
- Making a difference: switching from pre-bottled water to a dispenser can cut CO₂ emissions by as much as 86 %
- Instant draw-off: 200 l

reddot winner 2021

Fill T-Tap / Fill Pro

Technical data

Model	Fill still + sparkling				
Design / Type	tap system: without drip tray	tap system: with countertop drip tray	tap system: with integrated drip tray	countertop	base cabinet
Installation scenario	surfaces with existing drip trays, e.g. bars with a waste water connection.	surfaces made of materials difficult to drill (glass, stone, concrete, metal).	surfaces relatively easy to drill, e.g. for a waste water connection.	suitable where there is limited space below the countertop.	flexible installation in diverse scenarios, independent of existing counters, etc.
Types of water					
Configuration options	For installation without waste water connection				
	waste water container				
Specifications					
Cooling capacity	120 l/min				
Unit dimensions (W x H x D)	tap: 290 x 544 x 128 mm undercounter appliance (cooler): 302 x 603 x 483 mm		401 x 544 x 563 mm		base cabinet: 400 x 910 x 565 mm base plate: 520 x 4 x 564 mm
Dispensing height	383 mm	345 mm	376 mm	345 mm

Filtration and hygiene

Water is H₂O - but not just. Tap water varies greatly from place to place. That's why we have created top-notch filtration solutions for over half a century. We are committed to excellent quality - and to outstanding hygiene. Our features ensure great water, at all times.

The wonder of water

Better water, enhanced well-being.

The water we drink is not just hydrogen and oxygen – it contains minerals and more.

That's because water is a dissolver extraordinaire: When rain falls, it soaks through the ground, gathering organic matter and minerals. This affects its taste, appearance and smell.

Mains water is treated and tested. However, there may be some residues from disinfection, piping, etc. That's where BRITA comes in. The right water composition tastes better, encouraging people to drink more. And hydration is key to health – for better well-being, concentration and productivity.

Good hydration is the basis for our body's metabolic processes and for our health. And staying hydrated is easier if water tastes good. That's why BRITA has a special department dedicated to taste.

– Birgit Kohler

Head of BRITA's Organoleptic Department,
certified water sommelier

The water cycle

Water is an outstanding solvent and can contain diverse substances

Water treatment

Added substances, e.g. chlorine, can affect taste

The power of filtration

Excellent water – an art and a science.

With BRITA's proven filtration solutions, you can be sure of excellent water – meeting the highest hygiene, quality and environmental standards.

At BRITA, water is our passion. We have channelled over half a century's expertise into our BRITA filtration and treatment technologies, and into each and every one of our BRITA VIVREAU dispensers.

From activated carbon to ion-exchange resins, pre-filters, post-filters, double-layer membranes and more – you will find effective filtration solutions for your specific needs.

What's more, you can be sure of Made-in-Europe quality. All BRITA VIVREAU filters are manufactured in Germany and the dispenser itself is assembled in Italy in our own production facility. We focus on sustainability throughout – using, for instance, natural coconut shells for our activated carbon.

Activated carbon
Reduces substances that impair taste and odour

Ion exchanger
Reduces limescale and metals, e.g. lead

The right balance
Preserves minerals in water

Membrane filter
Reduces bacteria cysts

Dependable hygiene

Solutions that give you peace of mind.

BRITA's built-in safeguards keep dispensers squeaky clean by reliably removing bacteria, microbial cysts and more.

We take an end-to-end approach to hygiene, starting with the manufacture of our BRITA VIVREAU dispensers in Italy. Our recently established production facility is equipped with the latest hygiene technology. And our service technicians observe strict safety measures when they install your dispenser - ensuring the best-possible start. Our CLARITY Protect filter sets the brand-new hygiene standard for water dispensers. The vital first filtration stage is stringently bolstered by bacterial membrane purging for impeccably clean water every time.

Our dispensers' BRITA ThermalGate™ feature heats the tap to defend against contamination from external sources. And our optional BRITA HygienePlus solution - developed based on over 20 years' experience of the healthcare market - provides outstanding hygiene. Both have been tested and validated by independent institutes.

What's more, you will find cleaning instructions and guidance on our website - and we offer a proven portfolio of tailor-made cleaning products.

End-to-end hygiene
Starting with the dispensers' manufacture in Italy

Product features
BRITA ThermalGate™ and BRITA HygienePlus

Regular cleaning
Ensures safety and a long product life

CLARITY Protect 100

Water filter: Reliably safe, excellent water for your dispenser.

Drinking water is strictly controlled. But in healthcare, and environments which depend on an extra level of safety, only the most thorough, end-to-end water filtration system meets all demands. And it must be multi-stage filtration, not just a single activated carbon filter pass. The CLARITY Protect sets the industry benchmark from the first stage of filtration to the moment your glass is filled with crystal-clear, revivifying water. Over 50 years of German filtration expertise, is offered to you, in our "standard" filter.

BRITA CLARITY Protect 100 is compatible with:

- Top Pro
- Fill Range
- Extra I-Tap
- Extra C-Tap

The right balance
Preserves minerals in water.

Hollow fibre membrane
Filters out 99.999 % of bacteria and 99.95 % of cysts.

Activated carbon filtration
Reduces substances that impair taste and odour.

Pre-filter
Removes coarse particles.

• **Filter capacity:**
Protect 100: 11,500 l

• **Exceptionally clean, safe water**

• **Protects equipment and therefore lowers dispenser maintenance costs**

Benefits of BRITA CLARITY Protect

Reduces fine particles such as microplastics and asbestos fibers

Reduces metals such as lead

Reduces pharmaceuticals, pesticides and hormones

Reduces chlorine taste and odour

Reduces organic impurities

Removes bacteria and cysts

CLARITY Protect 100

Technical data

Model	BRITA CLARITY Protect 100
Technology	activated carbon and hollow fiber membrane filtration
Water intake temperature	4°C to 30°C
Ambient temperature for operation	4°C to 40°C
Ambient temperature for storage / transport	-20°C to 50°C
Water inlet and outlet connection	JG 8 mm
Operating pressure	2 bar to 8.6 bar
Flow rate at 1 bar pressure loss	180 l/h
Nominal filter capacity	11,500 l
Operating position	horizontal or vertical
Efficacy	
Reduction of particles such as micoplastics or sand	≥ 0.5 µm (NSF 42, Class I)
Reduction of asbestos fibres	> 99.9 % (NSF 53 tested by independent laboratory)
Reduction of metals such as lead	> 90 % (DIN EN 14898)
Reduction of chlorine	> 90 % (DIN EN 14898, Class I) and > 50 % (NSF 42)
Reduction of organic impurities such as benzene	> 90 %
Reduction of pharmaceuticals, pesticides and hormones such as naproxen, lindane, estrone	> 90 % up to at least 8,000
Reduction of bacteria	99.999 % (ASTM F838-05)
Reduction of cysts	99.95 % (NSF 53)
Dimensions (W x D x H)	
Filter system (filter head with filter cartridge)	68 x 68 x 338 mm
Filter cartridge	68 x 68 x 311 mm
Installed dimensions (vertical installation with wall mounting bracket)	68 x 74 x 371 mm

The food-grade quality and safety of BRITA water filter products are tested and verified by independent institutions

*applies to all materials that come into contact with water

BRITA ThermalGate™

Hygiene feature: BRITA's powerful thermal disinfection solution.

The tap of a typical water dispenser is exposed: a sneeze or touch of a hand, for example, can introduce germs. Without a robust safeguard, microorganisms on the wet tap can go on to contaminate the dispenser. That's why our BRITA VIVREAU dispensers include our ThermalGate™ feature. This automatically and regularly heats the tap to protect against contamination. So you can sit back and relax – knowing you have a proactive, powerful defence against germs, tried and tested by an independent laboratory (Ruhr District Institute of Hygiene).

ThermalGate™
Protects against retrograde contamination.

The tap is automatically heated to over 125°C at regular intervals for thermal disinfection.

ThermalGate™ is continuously active, providing protection not only at peak times, but also during periods of inactivity, e.g. at night or on weekends

Does not require manual effort or chemical additives

Developed on the basis of over 20 years' experience in the healthcare market.

BRITA Accessories

One of the best things about BRITA VIVREAU: it is a complete solution. There's your dispenser, which you can combine with customised bottles. Everything is installed by professional service engineers. And there are further choices - such as flexible financing options.

Diverse accessories

Find the match for your dispenser.

The water dispenser is only one part of the picture: take advantage of BRITA products across the entire water dispensing-serving-cleaning cycle.

We provide premium customisable and reusable bottles that can be readily refilled via our dispensers. Where needed, the bottles can be stored in special crates precisely designed for the various types of BRITA designer bottles. Clean, filled bottles and used empties can be placed in separate, dedicated crates.

Furthermore, hygiene is always the top priority. We therefore provide all equipment necessary to properly sanitise BRITA VIVREAU dispensers and BRITA bottles. For bottles, we offer a choice of washing trays, including versions compatible with professional and domestic dishwashers.

And our best-practices tip: we recommend cleaning BRITA VIVREAU dispensers daily for extra peace of mind.

Are you looking for ways to shrink your carbon footprint?

Replacing plastic bottles with long-lasting BRITA bottles and corresponding accessories is an easy way to make a difference.

Customisable BRITA bottles

The perfect pairing: BRITA's sustainable bottles and dispenser solutions.

Make your BRITA bottle your very own.

Customised high-quality bottles are ideal for a variety of scenarios. Placed on meeting or restaurant tables, for instance, they provide a great opportunity to prominently position a logo or raise awareness of a particular message.

The glass designer bottles come in a variety of sizes and styles, so you can find the right option for your organisation's needs.

Additionally, reusable bottles are a stand-out way to communicate your commitment to the environment. Eliminating single-use plastic bottles helps shrink carbon footprints and makes a statement - and now more than ever, it's something your employees, guests and clients will recognise and appreciate.

At the same time, giving up pre-bottled drinks does not mean your water is any less refreshing: our dispensers simply and efficiently chill water on demand.

BRITA VIVREAU services

Expertise and support throughout the dispenser lifecycle.

Safety through maintenance

Regular and thorough maintenance is essential to ensure appropriate hygiene. Our dispensers are serviced throughout the year as standard. Repairs made during the guaranteed lifecycle of the dispenser are covered by our rental and full-service contracts.

Reliably high service quality

Our employees are audited on a regular basis. A supervisor visits our customers, ensures they are satisfied and verifies all tasks have been completed. We give our staff top marks – but also want confirmation from our customers. Ongoing training programmes ensure our service quality is excellent, and always improving.

Customer centricity

Our service engineers and customer service agents work hard to secure customer satisfaction. We can answer any questions you have during on-site visits or via our dedicated hotlines.

*Service Level Agreement

BRITA VIVREAU services

The benefits of our full-service maintenance offering.

1. Cleaning

- Dispenser (interior/exterior) and base cabinet (for floorstanding dispensers)
- Chemical cleaning of all parts that come into contact with water
- Cooling unit fan and ventilation grille
- Drip tray and drain hose (where applicable)
- Dispenser tap and buttons or glass control panel

2. Visual inspection

- Robustness of dispenser and accessories
- Heat exchanger (cooling)
- Any exterior damage
- Any worn / defective parts
- Any potential leaks
- CO₂ hoses

3. Filter replacement

- BRITA filter(s) is replaced

4. Function test

- Set pressure / water (water pressure and pressure regulator)
- Function of the solenoid valves (timing)
- Carbonator-unit sensor probe
- Water meter check with documentation (digital or analogue)
- Buttons or touch display
- Temperature of dispensed water (cooling)
- CO₂ content (visual inspection of a glass of dispensed water)
- Flow rate of sparkling / still water
- Electronics (in line with local requirements)
- BRITA ThermalGate™
- Safety valve of the carbonator-unit
- CO₂ pressure hose (CO₂ bottle / pressure regulator)
- Cooling unit

5. General

- Refresher training sessions for staff (optional)
- Digital documentation of completed tasks

Passionate about water, Passionate about you.

We have been water experts since 1966, and enable organisations like yours to make better water choices.

Better water is our core competency. It has been since Heinz Hankammer founded the company in Taunusstein, Germany, in 1966. This philosophy continued under his son Markus Hankammer, and guides our actions to this day.

In addition to consumer products, BRITA now offers professional filtration solutions and mains-fed dispensers. Every day, over 95,000 BRITA water dispensers worldwide serve more than 2.5 million people in workplaces in diverse industries – from famous car manufacturers, to leading hospitality chains, to tech companies in Silicon Valley.

In other words, when it comes to great water, we know what we are talking about. We combine over 50 years' experience with a broad product portfolio and corresponding services. So you are sure to find just the right solution for you.

German technologies – worldwide applications

BRITA is a global brand, with products sold in 70 countries on all five continents. BRITA dispensers are made in Germany and Italy, and are available in 27 countries, including in EMEA, Australia and North America. What's more, we offer customers dedicated international key account management.

- Subsidiaries
- Distribution partners
- Production plants

BRITA Italia
Excellent manufacturing and
quality assurance

Smart technology
Advanced equipment and
energy efficiency

Dedicated people
A skilled and
committed team

Reliable excellence, made-in-Europe quality

Filters developed and manufactured in Germany,
dispensers assembled in Italy.

At BRITA, we draw on over 50 years' experience as a family business to design, develop and build our pioneering products. By engineering and manufacturing our products ourselves, we can ensure exceptionally high quality, and scale production in line with demand.

Our manufacturing plants - including one opened in 2018 - employ advanced technology for greater energy efficiency. Our skilled and dedicated staff complete many tasks by hand, with a high degree of craftsmanship going into each and every dispenser.

Our diverse team of employees leverage tools, such as ergonomic lifting aids and tablets that display instructions. Hololens headsets help workers in Italy quickly resolve any issues: They can communicate their questions to the team in Taunusstein, and receive assistance in real time.

Dedicated to sustainability from the beginning

Less plastic
Eliminate waste from
single-use bottles

Fewer emissions
Avoid CO₂ from bottle
transport and disposal

Reusable bottles
Enjoy durable, attractive
BRITA glass bottles

We've been green since day one, and we continue to reduce our – and your – environmental impact.

At BRITA, the environment is a topic close to our hearts. That's why we are committed to improving sustainability – at our enterprise, and at yours.

We have a recycling programme for our filter cartridges. We are exploring ways to cut carbon emissions through efficient processes. And we are reducing waste throughout the product lifecycle, e.g. by adopting LED lighting and minimising packaging.

What's more, our products are built for a long service life, and help you avoid waste. Just consider: If a typical employee drinks one litre of water each workday, then a company of 100 could avoid 506 kg of single-use plastic waste per year by switching to a BRITA VIVREAU dispenser.* Using a BRITA VIVREAU water dispenser produces up to seven times less CO₂ than bottled water.

BRITA received the ecovadis silver rating in 2021, meeting 21 sustainability criteria in four categories: environment, labour & human rights, ethics, and procurement.

Our product carbon footprint

Our water dispensers produce **86% lower carbon** emissions* than bottled water.

We are committed to doing our part to combat the ongoing climate emergency.

So we analysed the entire lifecycle of our BRITA VIVREAU water dispensers. The results: we produce **64% less*** carbon than bottled water dispensers, and an impressive **86% less*** than pre-bottled water. We are proud of these figures, which were calculated by an independent external agency and verified by TÜV Nord.

And we want to continue reducing our footprint – and help our customers do the same. For example, we have created a new 'Planet Contribution' key performance indicator to measure both the positive impact of our products (e.g. how many single-use plastic bottles they replace) and the negative (e.g. carbon emissions).
