

Barriers

Bailey Streetscene's range of barriers includes Pedestrian Safety Barriers, Hoop Barriers, Column Protection and Fold Down Barriers. Our range of barriers comes in a number of designs and materials, giving you the option to choose which best suits the surrounding environment. We also have the standard pedestrian guardrails which provide an effective roadside barrier for pedestrians while allowing good visibility from a motorist's point of view.

Our range of pedestrian Safety barriers includes the standard Pedestrian Guardrail which provides an effective roadside barrier for pedestrians while allowing good visibility from a motorist's point of view.

Product Code: BSS51000

Our Column Protectors are Decorative, Modern and strong, ideal for the protection of trees or notice boards. They come in a choice of colours to enable an aesthetically pleasing look in any environment.

Product Code: BSC801030

Our perimeter barriers have been used in a number of applications including securing fore courts, acting as anti ram raid deterrents outside shop fronts and for creating safe walkways for pedestrians in and around retail car parks.

Product Code: WBH60

The fold down barrier offers an economical yet reliable way to secure car parking and car parking spaces. Secured with a cylinder lock with three keys the barriers automatically lock when returned to the vertical position.
