Folding Fabric Partitions

Folding fabric partitions are a versatile work space solution for offices, schools, nurseries, hospitals, leisure centres, hotels and any interior that must have the flexibility to operate as a single large space one minute, then be subdivided into smaller units the next. Sound ratings from Rw15dB to 35dB are available. They are **economical, convenient and easy to operate**

Sliding Folding Partitions

Sliding Folding Partitions – Multifold - are a range of custom built hinged panel walls. Systems can be floor supported with a floor track, or top hung.

These multifold walls can be single parting and stacked at one end or bi-parting and stacked at both ends. Pass doors can be incorporated. Glazed options are available.

Panels can be quickly opened and locked into position and available in a wide range of finishes.

Sound ratings from Rw35dB to 44dB are available and Class 1 and Class 0 SSF (Surface Spread of Flame)

Operable Walls

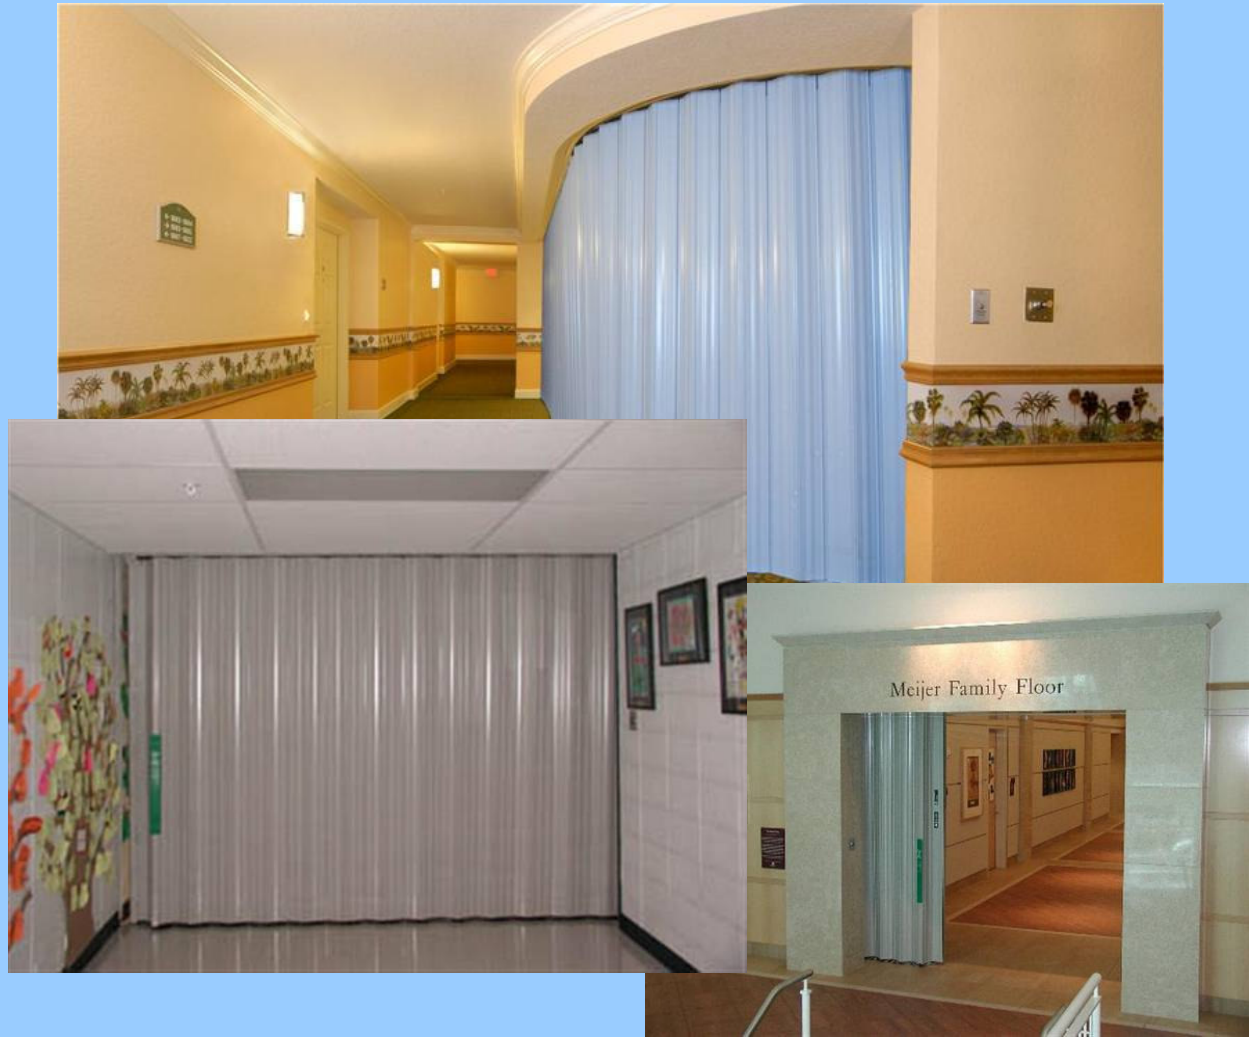

Operable walls provide custom built top hung partitions with a wide range of layout, stacking and finish options. Pass doors can be incorporated into panels or be full height at one or both ends. Glazed & semi-automatic options are available

Panels can be quickly opened and moved into position.

Sound ratings from Rw40dB to 59dB are available and Class 1 and Class 0 SSF (Surface Spread of Flame)

FireGuard Partitions

FireGuard concertina partitions provide a unique dimension in architectural expression, allowing critical fire safety requirements to be met. Complying with BS EN 1634-1-2000 certified up to 2 hours. FireGuard is a top hung horizontally sliding automatic fire door, generally activated from a fire alarm system or smoke detectors, and can be configured in straight or curved design. When not activated FireGuard is out of sight in a pre built pocket. but can also be used to secure an area with access gained through key switch or card reader.
