

# Floor Screeds - How to Avoid Failure

## Overview:

This RIBA approved CPD seminar covers all aspects of floor screeds and their applications. It discusses areas of floor failure with advice on how to avoid floor problems and on how to choose the correct floor specification. This CPD will help you:

- Identify the correct specification of floor screeds
- Identify the types of floor screeds and application areas
- Identify the common causes of floor screed failure and how to avoid these failures

## Who will benefit?

This program is for architects and specifiers, offering valuable insight into avoiding mistakes and specifying floor finishes.

## Learning Outcomes:

- Identify types of proprietary screed
- Understand screed application
- Reasons for floor screed failure
- Consider why we screed
- Traditional vs proprietary
- Good practice & considerations

## Programme:

RIBA Core Curriculum: Design, Construction and Technology

## Course Duration / Location:

1 hour | Online or in-person seminar
