

Specifying Seamless Resin Terrazzo

Overview:

This seminar covers the specification of seamless resin terrazzo flooring. It will help you to understand and learn about the following topics:

- The origins of terrazzo
- The characteristics of seamless resin terrazzo flooring and comparisons to terrazzo tiles
- The specification criteria and the benefits of seamless resin terrazzo flooring
- How to clean and maintain a seamless resin terrazzo floor
- The life cycle costs and cost analysis of seamless resin terrazzo flooring.

Who will benefit?

This program is for architects and specifiers, offering a background to the traditional history of terrazzo and outlining the different systems available.

Learning Outcomes:

- Understand the different materials available and their application processes
- Understand the benefits of using seamless terrazzo over traditional tiles
- Identify the benefits and lifecycle implications of different materials
- Identify appropriate cleaning methods to ensure a prolonged floor life span

Programme:

RIBA Core Curriculum: Design, Construction and Technology

Course Duration / Location:

1 hour | Online or in-person seminar
