

# PRODUCT RANGE - CASEMENT LOCK

A wide range of locking systems to suit new build, commercial and domestic applications. All products are manufactured to ensure quality, reliability and security.

## 1. YALE SHOOTBOLT

High security shootbolt engineered to provide versatility, reliability and the most stringent security applications. 2 centre opposing cams together with cam and shootbolt to both corners providing a minimum of 6 locking points to all windows. Cast keeps with night vent facility complete this high security lock offering.

## 2. ENCLOSER

The encloser features a slim gearbox with opposing mushroom cams along the espag rod which “enclose” from both sides into each cast keep for maximum security.

## 3. ESPAGNOLETTE

High performance espagnolette designed with night vent facility and cast keeps. Uniquely designed gearbox provides a smooth operation.
