Gravity Snap

Product Description

GravitySnap is an accessory for the Gravity System, designed to connect adjacent GravityGrid panels together where the surface finish is not bonded to the grid.

It helps reduce movement between grids, improving the stability and alignment of the raised flooring build-up during installation and use.

Compatibility

Compatible with GravityGrid

Performance

GravitySnap is manufactured from a material that provides good resistance to acidic and alkaline solutions, as well as atmospheric agents including harsh weather conditions, air exposure and UV rays.

The material retains its mechanical properties over time and has a fire reaction classification of E(fl).

Included Accessory

N/A

Material

Polypropylene : PP-T20%

Operating Temperature

-40°C to +75°C

Recycled Product

Yes

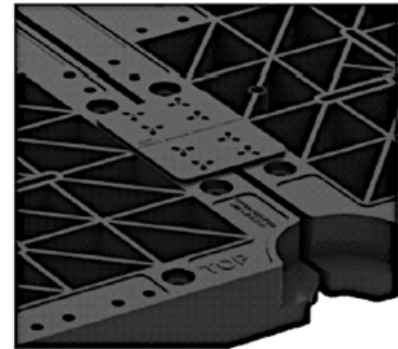

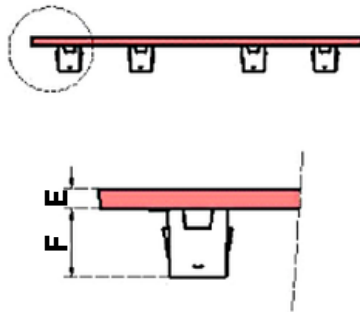

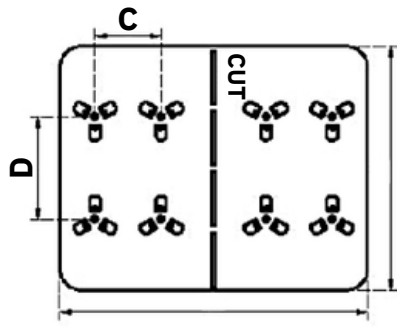

Recyclable

Yes
