Elan sliding doors offer an aesthetic solution for areas where space is at a premium. Doors are available as single or bi-parting and a range of track options are available to accommodate doors of most sizes. Floor track is only needed on the outside of the opening, leaving the doorway free from any obstructions.

ADVANTAGES

Elan sliding doors provide all the benefits of a large access door while maintaining the aesthetics of a high class double skin partition.

Elan panels have the option of a fire rated version which has been tested to BS476: part 22: 1987

APPLICATIONS

Elan sliding doors are very popular for areas which have heavy traffic but also need to look professional.

Elan has been designed with the facility to run wires / data cables through the panel / panel joints and floor track.

FEATURES

Elan sliding doors provide an aesthetic solution for areas which require access from large vehicles.

Blinds can be integrated in double glazed panels.

Claw lock is standard on all Elan sliding doors.

Flush pull handle is standard.

Elan sliding door top track and pelmet.

A range of track and trolley variants are available to suit most sizes of door.

FACTS

All panels in-filled with Rockwool, glass is wired or alternative fire rated type.
