

1. System taken into chase
2. Timber fillet
3. Elastex system
4. Existing substrate

NOTES

- a. As an alternative the system may be flashed with lead or GRP flashing.
- b. As per standard building practice, care must be taken positioning the flashing with regard to any cavity tray.
- c. Timber fillet may be omitted by double taping right angle junction.
- d. On completion the detail should be re-pointed or finished with PU sealant.
- e. It is advised that wall flashings are periodically inspected.
