

Febo

[Click to view more images](#)

The Febo bench is made up of a large, 92mm thick wooden okumè or pine L of which the larger side consists of the seat which bends from one end and slopes vertically down to form one of the supports.

From the other side the support is made up of brushed AISI304L stainless steel with base plate, and an upper plate to fix to the wood.

The bench can be accessorised with two 1W, 12 V-DC, 50 Hz built-in led lights with transformers, which can be positioned in the appropriate carved parts.

Specification:

Length: 2000mm
Width: 500mm
Height: 450mm
