Design: 'Pause'

## Designer: Allermuir Design Team

Allermuir's in-house design and development team is one from a mixture of design, engineering and production backgrounds.

As well as working successfully in developing the ideas of freelance furniture designers and products for architects and interior designers specific projects, the department's acquired market knowledge has also led to a number of highly successful in-house designs.

## Features:

Although not a unique concept in this age of increasingly versatile workspaces, Pause, is a mature and sophisticated version of the now ubiquitous modular reception and breakout space seating system.

The comfort of the core seating modules has been carefully balanced to provide a bench style sit, but with just the right degree of softness along with a supportive backrest. Mobile low stools, simple unfussy high stools, long low and high benches, a range of tables in different heights and sizes and sleek stylish power modules in two heights all work together to provide an extensive, adaptable and simple modular system capable of meeting a multitude of needs.

## Finishes:

All upholstered parts can be covered in either leather or a wide range of contract quality fabrics. Base frames are available in polished chrome as standard or brushed chrome as an option. Table tops are available in a wide range of laminates or real-wood veneers. Feet/glides are black.

## Marketplace:

Pause is a contemporary modular seating system with wide ranging functionality and appeal. It works on two levels; as a combination of pieces to create waiting, working or relaxing environments, or as individual pieces in the form of sofas, chairs and table. Across these levels it will work equally well in large or small corporate atria, executive or hotel lounge areas, VIP airport lounges, informal meetings areas and general breakout spaces.

## Products available in range

**PSM100**  
1 seat module  
Upholstered seat  
Polished chrome frame

Dimensions:  
Overall 450h 750w 750d  
Seat 450h
