

**At FurnitureRealm we have the expertise and facilities to produce unique and individual pieces of furniture to meet the specific demands of every customer.**

Every piece of our bespoke furniture is unique and is created just for you. We can build to any size, adding any specific detail that you wish to include, in any material you choose. Our aim is to produce a range of furniture that embodies you and your business. Our furniture is of outstanding quality and made only by professionals. Inspired by any period, style or movement you

can be certain that our furniture is finished to the highest of standards.

Organising the design, production and supervision of the basic furniture manufacturing is only part of the service which FurnitureRealm undertake on behalf of our customers. We are not manufacturers of fabrics and leathers, nor are we Agents, but we expect the collaboration we have developed with our Suppliers to embrace a truly exciting and imaginative range of high quality materials. They can offer a rich catalogue of choice materials from stock, which are immediately ready for incorporation in all of our furniture.

- Trade Prices - fabrics from as little as £4 per meter
- Over 1000 varied ranges
- Straight from the mill
- No multiple traders

Please contact us for more information or to receive details about specific fabrics/finishes.
