

JOHN NEWTON
WATERPROOFING SYSTEMS

A photograph of a row of white terraced houses with blue window frames and shutters. The houses are set on a street with a double yellow line. Flower boxes with colorful flowers are placed in front of the houses. A dog is visible in a small fenced area near the entrance of one of the houses. The sky is blue with some clouds.

***Damp Proofing or Waterproofing
Identifying The Correct Solution***

John Newton & Company is the UK's leading independent supplier of structural waterproofing systems, water control and drainage products. Newton System 500 is a maintainable basement waterproofing solution for below ground applications, while Newton System 800 damp proofing membranes are ideal for treating damp walls above ground level.
