

GARTEC

RIBA Certified Continuing Professional Development – Platform Lifts

Stay up to date with our RIBA-approved CPD seminars on platform lifts. Learn online or in person, solo or with your team—whenever it suits you.

Gartec offers **two RIBA Certified CPD seminars** tailored for architects, covering the specification and integration of platform lifts across residential and commercial environments.

Platform Home Lifts for Private Residences and **An Introduction to Specifying a Platform Lift** provide comprehensive guidance on lift specification in both **domestic** and **commercial** contexts. The content explores design, compliance, technical standards, and the evolution of platform lifts into discreet, versatile solutions for homes, as well as the regulatory and practical considerations for public and commercial buildings.

How to book our new CPD

Our CPD seminars are available in two flexible formats: a 20-minute on-demand video via our website / RIBA or a 45-minute in-office seminar with Q&A and lunch provided. Both formats cover core curriculum content and include a certificate upon completion. To book a session or find out more, simply call or email our team.

Our curriculum CPD covers the following topics:

Why Choose a Platform Lift

Common Applications and Use

Benefits and Design Features

Safety Features

Regulations and Legislation

Number of Questions:
seven

Est. Time to Complete:
30 Minutes
