

MPR LOW UP PLATFORM STEP LIFT

ABOUT

The MPR Low up step lift, is an easy-to-maneuver and reliable lift with protective edges, roll-off protection and railing. It is one of our most cost-effective lift solutions that provides accessibility immediately.

Operated with joystick or a remote control is available as an option. The standard roll-in width is 715mm, but there is also a 920mm wide (Part M compliant) platform, with the mechanically interlocked top gate option chosen this makes the Low Up suitable and compliant for a public and commercial environment.

The MPR Low up step lift is galvanized (visible parts are stainless steel) as standard but can also be hot galvanised, powder coated in any RAL colour, or a stainless steel version is available as an option.

OPTIONS

- Mechanically interlocked top gate
- Bellows or safety plate
- Constant pressure joystick
- Different floor coverings
- Powder coating to alternative RAL
- Wider platform 920mm
- Longer access ramp 250mm
- Additional stainless steel handrail on opposite side of lift
- Remote landing call stations
- Key switch control
- No pit required

SUITABLE APPLICATIONS

Ideal for public spaces such as events, retail, small office buildings, education, health, care homes and leisure.
