THE HOME OF PLAYGROUND ADVENTURES

Hand Made Places adds the magic to outdoor environments. Our inclusive playground equipment supports active, imaginative, sensory and traditional play as well as outdoor learning.

Working with early years settings, schools, SEND education providers, local authorities, parish councils, architects and contractors across the UK, we design, manufacture and install everything needed for exciting and inspirational playgrounds. Play has an essential role in our communities, and as part of the Broxap group of companies, we believe in delivering high-quality playground projects packed with play value.

From our 10,000 sq ft timber production facility we develop and craft a wide range of climbing frames and play units, challenging trim trails, outdoor classrooms, playground furniture and products which users of all abilities can access. At the heart of our manufacturing process is a commitment to sustainability, producing long-lasting, durable and safe playground equipment using the latest technology to save energy, cut carbon emissions and manage waste. Our aim is to create engaging outdoor spaces where everyone can have fun – and to protect the environment in the process so that the enjoyment extends across generations to come.

The benefits of a HAND MADE PLACES PLAYGROUND...

AN OVERVIEW OF OUR PROCESS

TACKLES OBESITY

10 per cent of reception age children are obese with a further 12 per cent overweight.**
Outdoor play encourages physical activity and positive behaviours which can improve health outcomes for children.

FUELS IMAGINATIONS

Outdoor play is a fun way to learn. Our play equipment is designed to inspire children to investigate new situations and express themselves freely. From playhouses to adventure trails, our equipment acts as props for children to follow their interests.

ENGAGES EVERY CHILD

Our diverse and accessible equipment includes sensory experiences and play opportunities for all children regardless of ability. The rich mix of features brings young people together to interact with each other and the environment.

CAPTIVATES THE SENSES

Sensory play equipment helps children to process new information and enriches lessons. It encourages independent thinking and inspires the imagination. A sensory environment supports language development and cognitive skills.

BUILDS HEALTHY BODIES & MINDS

Physical activity contributes to the development of healthy habits in later life. Exercise is crucial for strengthening muscles and bones and supports good mental health, encouraging better self-esteem and boosting mood and alertness.

CLIMBING FRAMES & PLAY TOWERS

Active play is a great way of encouraging a healthy lifestyle from a young age. It also keeps young minds agile and engaged. At Hand Made Places we design, manufacture and install a large range of play units and climbing frames to challenge children of all ages and ensure that play time is always fun.

Our timber play towers incorporate a wide range of elements so that there is something for every ability. Scramble nets, pull up ramps and steps are linked by bridges and platforms to chutes, slides and firefighter poles.

MODULAR TOWERS

NEW!

Sourcing an exciting play tower to fit every school playground just got easier.

Whether it is designing for a specific size space; to meet certain activity goals and priorities; or bringing an imagined playground adventure to life, the new Modular Towers range allows buyers to leave their own stamp on their play area.

As well as offering greater choice and flexibility, the system puts the customer at the heart of the playground design process, and in control of everything from cost to complexity.

TRIM TRAILS

Trim Trails are the perfect way to get children outside and exercising with a clear focus on fun. Exploring the surrounding environment becomes an exciting new challenge as they tackle the series of playground equipment while all the time building confidence and ability.

The type of play encouraged by a Trim Trail installation helps children to develop strength and co-ordination. Our range is perfect for early years play and is suitable for anyone over the age of three making it a great addition for schools, public parks and open spaces, leisure and holiday sites or tourist attractions.

INCLUSIVE PLAY

Inclusive playground equipment draws young people of all abilities together to share fun and laughter side by side. With additional supports and wheelchair access, we offer some of the most popular and best loved playground equipment for all to enjoy.

Teamed up with products from our Sensory Play range and Imaginative Play range, our Inclusive Play collection is essential for spaces which unite users through experiences. Based on Traditional Play equipment such as swings, seesaws and roundabouts, inclusive playground equipment has improved accessibility and often has space for multiple users.

IMAGINATIVE PLAY

Our range of outdoor play equipment is designed to encourage imaginative play, creativity and innovative thinking.

Through imaginative play, basic skills are promoted as youngsters explore, learn, connect to and act out different experiences. This type of role play is important for children and is a vital part of their early development. Play equipment manufactured by Hand Made Places is designed to maximise the play value for children, creating a make-believe environment that's also full of action and adventure and sensory activities.

SAND & WATER PLAY

Sensory learning is always fun when it incorporates sand and water play. The collection of sand pits and water trays designed by Hand Made Places keeps children engaged and helps to support their education and development too.

At Hand Made Places we offer a range of product styles and designs so that there is something to suit every outdoor space. Sand and water play is an inclusive activity that introduces youngsters to mathematical ideas and science topics, supports the development of personal strengths like problem-solving and enhances motor skills.

TRADITIONAL PLAY & SPORTS

Playgrounds are places where memories are made and friendships formed and traditional equipment such as swings, seesaws and slides are still a key component in delivering the fun factor.

Our inclusive designs bring playground visitors together to enjoy a wide range of games and activities, including outdoor fitness sessions, to maintain play appeal and keep youngsters challenged. We have decades of experience and insight into what makes a playground interesting, delivering active, imaginative and traditional play experiences that all users go on to treasure.

MUSIC & PERFORMANCE

Outdoor musical instruments offer cognitive, emotional and physical development opportunities for all abilities and ages. Our range of outdoor musical instruments enrich any playground or outdoor area.

From drums to chimes, bells to handpipes, outdoor percussion instruments are an attractive and fun way for children to explore their creativity and understand music. They provide children with the opportunity to explore and express their artistic ability.

Outdoor musical play instruments allow all playground visitors to engage with one another as they play – and could even be a gateway to unearthing new talent!

CLASSROOMS, SHELTERS & SHADE

At Hand Made Places we believe in promoting learning and fun across all settings. Outdoor learning brings exposure to many experiences that can help children in different areas of their lives.

All types of locations can offer year-round access to outdoor learning and play with the right infrastructure in place. Our range includes timber outdoor classrooms and shelters, playground shades, and performance or presentation areas. A beautifully crafted addition to any playground, our timber canopies come in a variety of styles and sizes.

SAFETY SURFACING & PLAYGROUND MARKINGS

At Hand Made Places we offer a wide range of playground surfacing options which conform to the EN1177 standard.

Safety flooring can enhance the attractiveness of a playground and contribute to the play experience by tying in to playground themes and imaginative play equipment. The playscape may feature colour coded zones, different flooring textures, surfacing suited to areas of high usage or flooring which complements the existing surroundings. It can also help to guide users around the equipment or add play value through traditional markings for games like hopscotch.
