

Ancillary Products

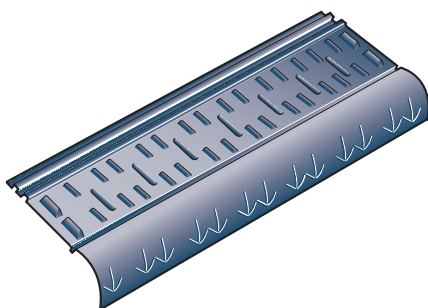

ECFM UNIVERSAL EAVES COMB FILLER

USE: Continuous eaves closure and vermin stop which adapts to the tile profile. Easy to handle and maintenance free. Quick to fix, with slotted nail holes. Compatible with pantiles. Prevents 'cocking' of tiles at the fascia.

MATERIAL: Black PVC.

SIZE:
Height: 66 mm
Length: 1 metre

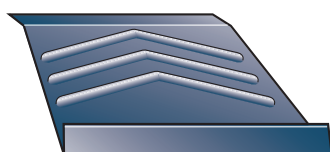

HD3000 FELT SUPPORT TRAY

USE: Provides full support and eaves protection for felt at eaves level. Combines to provide drip into guttering.

MATERIAL: Black PVC.

BENEFITS: Clips together for universal rafter spacing. Hinged at fascia to prevent panel distortion on low pitches. Fixed with HD12000M or HD12000U or directly to fascia board.

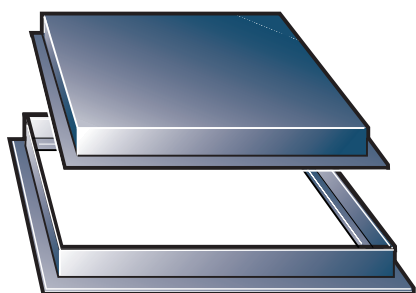

SIZE: Full coverage per 600mm panel.

IL/DP MOISTURE DIVERSION PLATE

USE: An optional extra, the diversion plate provides additional security, if required, against debris and moisture penetration when fitted with either flush fitting slate or tile ventilators.

MATERIAL: Black PVC.

HD1820 & HD1620 LOFT ACCESS DOORS

USE: A fully furnished, prefabricated and insulated unit which is quick and easy to install. Simply fit between standard gap rafters and fix with screws.

HD1820
Sizes: Frame: 820 × 620 mm
Finished Hole: 720 × 520 mm

HD1620
Sizes: Frame: 620 × 620 mm
Finished Hole: 520 × 520 mm

SPECIFICATION: Fully insulated and sealed throughout with push-up lid.

MATERIAL: White PVCu.
